Edmund J. James and the Making of the Modern University of Illinois, 1904-1920 Winton U Solberg,J. David Hoeveler,2024-11-12 In 1904 Edmund J James inherited the leadership of an educational institution in search of an identity His sixteen year tenure transformed the University of Illinois from an industrial college to a major state university that fulfilled his vision of a center for scientific investigation Winton U Solberg and J David Hoeveler provide an account of a pivotal time in the university s evolution A gifted intellectual and dedicated academic reformer James began his tenure facing budget battles and antagonists on the Board of Trustees But as time passed he successfully campaigned to address the problems faced by women students expand graduate programs solidify finances create a university press reshape the library and faculty and unify the colleges of liberal arts and sciences Combining narrative force with exhaustive research the authors illuminate the political milieu and personalities around James to draw a vivid portrait of his life and times The authoritative conclusion to a four part history Edmund J James and the Making of the Modern University of Illinois 1904 1920 tells the story of one man s mission to create a university worthy of the state of Illinois      Predicting Outcomes of Investments in Maintenance and Repair of Federal Facilities National Research Council,Division on Engineering and Physical Sciences,Board on Infrastructure and the Constructed Environment,Committee on Predicting Outcomes of Investments in Maintenance and Repair for Federal Facilities,2012-03-01 The deteriorating condition of federal facilities poses economic safety operational and environmental risks to the federal government to the achievement of the missions of federal agencies and to the achievement of public policy goals Primary factors underlying this deterioration are the age of federal facilities about half are at least 50 years old and decades of inadequate investment for their maintenance and repair These issues are not new and there are no quick fixes However the current operating environment provides both the impetus and the opportunity to place investments in federal facilities maintenance and repair on a new more sustainable course for the 21st Century Despite the magnitude of investments funding for the maintenance and repair of federal facilities has been inadequate for many years and myriad projects have been deferred Predicting Outcomes of Investments in Maintenance and Repair of Federal Facilities identifies processes and practices for transforming the current portfolio of federal facilities into one that is more economically physically and environmentally sustainable This report addresses ways to predict or quantify the outcomes that can be expected from a given level of maintenance and repair investments in federal facilities or facilities systems and what strategies measures and data should be in place to determine the actual outcomes of facilities maintenance

and repair investments      **Coast Guard Engineer's Digest** ,1978      **The Coast Guard Engineer's Digest** ,1979      **The University of Illinois, 1894-1904** Winton U. Solberg,2000 The distinguished historian Winton U Solberg presents a detailed case study of one institution s transformation into a modern American university The years 1894 to 1904 mark the stormy tenure of Andrew S Draper as president of the University of Illinois Draper a successful superintendent of schools with no college or university experience and no credentials as a post secondary administrator presided over many crucial improvements in the university s physical plant curricula and other areas However he failed to infuse the university with a spirit of cohesion and his term as president was fraught with conflict From his inauguration on the autocratic Draper collided with deans and faculty who opposed both the substance of his changes and the manner in which he presented and implemented them This volume closely examines the Draper years from the perspectives of faculty students and administrators Solberg outlines the administrative faculty staff and physical infrastructure He also reveals a vibrant and varied student life including a whirl of social activities literary societies intercollegiate debate and athletics hazing religion and increasingly prominent fraternities A sharply delineated and detailed picture of a university in transition The University of Illinois 1894 1904 traces the school s shift from an institution known primarily as a training ground for engineers to a full fledged university poised to compete on the national level      **Energy Information Data Base** United States.
