**The Cambridge Handbook of Consumer Privacy** Evan Selinger, Jules Polonetsky, Omer Tene, 2018-04-02 Businesses are rushing to collect personal data to fuel surging demand. Data enthusiasts claim personal information that is obtained from the commercial internet including mobile platforms, social networks, cloud computing and connected devices will unlock path breaking innovation including advanced data security. By contrast, regulators and activists contend that corporate data practices too often disempower consumers by creating privacy harms and related problems. As the Internet of Things matures and facial recognition, predictive analytics, big data and wearable tracking grow in power, scale and scope, a controversial ecosystem will exacerbate the acrimony over commercial data capture and analysis. The only productive way forward is to get a grip on the key problems right now and change the conversation. That is exactly what Jules Polonetsky, Omer Tene and Evan Selinger do. They bring together diverse views from leading academics, business leaders and policymakers to discuss the opportunities and challenges of the new data economy.

Preparing Globally Competent Professionals and Leaders for Innovation and Sustainability Guo-Brennan, Linyuan, Guo-Brennan, Michael J., 2022-04-22 The personal and organizational struggles and accomplishments revealed by the COVID 19 pandemic highlight that innovation is the defining trait of individuals and organizations that thrive in the 21st century. The global health crisis not only accelerated the global geopolitical tensions and disrupted organizations in all sectors but confirmed the importance of preparing globally competent citizens, professionals and learners who can effectively respond to the economic, environmental and digital transformations in the 21st century through lifelong learning and professional development. Leaders today need to not only understand the financial, operational, sociocultural and historical contexts of regional, national and global systems but also to build effective partnerships and trusting relationships with all stakeholders in effective policymaking, fostering an organizational culture that supports innovation and managing risks. Preparing Globally Competent Professionals and Leaders for Innovation and Sustainability is centered on international higher education's role for the global common good. It critically examines the need for globally competent citizens, professionals and leaders in the 21st century and higher education's role in the global common good for a sustainable world. The book presents an evidence-based interdisciplinary framework and promising strategies to allow all learners to develop global citizenship and global leadership while addressing the need to prepare human capital for the global knowledge economy and digital transformation of the 21st century. Covering topics such as accessible education, international higher education and organizational innovation, this premier reference source is an excellent resource for organizational leaders, executives, faculty and administration of higher education, government officials, human resource managers, industry professionals, researchers, academicians and students.

Essentials of Medicinal and Aromatic Crops Muhammad Zia-Ul-Haq, Arwa Abdulkreem AL-Huqail, Muhammad Riaz, Umar Farooq Gohar, 2023-10-09 Medicinal and aromatic crops (MACs) are high value crops since the natural products obtained from them are low volume, high
