Age of Wolf and Wind Davide Zori,2024-01-02 The Vikings continue to fascinate us because their compelling stories connect with universal human desires for exploration and adventure In Age of Wolf and Wind Voyages through the Viking World author Davide Zori argues that recent advances in excavation and archaeological science coupled with a re evaluation of oral traditions and written sources inspire the telling of new and engaging stories that further our understanding of the Viking Age Drawing upon his fieldwork experience across the Viking world he proposes that the best method for weaving together these narratives is a balanced interdisciplinary approach that integrates history archaeology and new scientific techniques The book delves into key questions of the Viking Age such as the motivations of Scandinavians to board open wooden ships to raid England or cross the North Atlantic in search of new worlds beyond Europe Each chapter offers new conclusions about the Vikings their views on death their raiding tactics their lavish feasts their forging of powerful medieval states and many others In each case Zori brings together written sources archaeology and the natural sciences The

dialogues he creates between these three separate data sets result in an entanglement of confirmation texts archaeology and science affirming the same story contradiction texts archaeology and science telling incompatible stories and complementarity texts archaeology and science contributing mutually enriching stories This optimistic yet critical treatment of the sources allows for a holistic picture of the Viking Age to emerge one that is accessible to a general audience but simultaneously offers new insights into current key issues of scholarly debate
