Iyall Smith, 2006-07-13 At an earlier time sociologists C Wright Mills W E Du Bois and Jane Addams loudly protested injustices and inequities in American society provided critiques and analyses of systems of oppression and challenged sociologists to be responsible critics and constructive commentators These giants of American sociology would have applauded the 2004 meetings of the American Sociological Association The theme of the meetings Public Sociology presided over by President Michael Burawoy sparked lively debate and continues to be a spur for research and theory and a focal point of ongoing discussions about what sociology is and should be This volume advances these discussions and debates and proposes how they can be further sharpened and developed Some authors in this volume clarify the distinctive roles that Public Sociologists can play in the discipline in the classroom and in larger society Others provide critical analyses focusing for example on aspects of American society and institutions global corporate actors sweatshop practices international neoliberal organizations migration policies and U S environmental policies Others advance new ways of thinking about global interdependencies that include indigenous groups peasants as well as societies in industrialized and developing states and international organizations Still others propose visions of transformative processes and practices that are progressively affirmative even activist in the spirit of A Better World is Possible This volume provides an overview of some of the major debates in sociology today and places emphasis on the importance of human rights in the One globalized World we live in today Authors engage these debates with spirited enthusiasm and write exceptionally clearly about those topics that may be new to American readers *Global Insecurity* Mary Kaldor, 2000-07-01 The first half of the 1990s was a period of great optimism about humanitarian intervention In the aftermath of the Cold War it was hoped that the international community could begin to act cohesively in defence of fundamental international principles and that a global security policy aimed at the prevention of conflict and upholding human rights could be established The actual experience of this period however has been sobering Agreements engineered from above like the Dayton Agreement or the Oslo Agreement have mixed consequences Efforts at humanitarian relief have often ended up frustrating good intentions and prolonging conflict This book looks at what we learn from such experiences Should we retreat from intervention Is there a global responsibility for wars and for massive violations of human rights The authors start from a conviction that in a globalized world we do have certain responsibilities and that the point is to look at how we intervene They aim to open up a third approach an alternative to the dominance of realist or neo liberal approaches which would address the reality of contemporary conflict Key themes include the need for a more democratic approach in terms of the accountability and openness of both governments and international institutions the importance of international humanitarian law and the future of formal military forces *The*

United Nations Guide to Model UN Department of Global Communications, 2020-05-01 Model United Nations MUN simulations are popular exercises for those interested in learning more about the UN. It is estimated that hundreds of thousands of students worldwide participate every year in MUN at all educational levels in schools and universities. Many of today's leaders in law, government, business, and the arts participated in MUN as students. Some MUNs, however, do not follow the actual rules and practices used at the UN. This guide is designed for students and teachers on how to organize and participate in MUNs that simulate the way the UN actually works. [The Right to a Fair Trial under Article 14 of the ICCPR](#) Amal Clooney, Philippa Webb, 2021-09-23 The right to a fair trial is the most litigated human right in the world. Understanding the right requires reference not only to its interpretation by courts, treaty bodies, rapporteurs, experts, and scholars, but also to the preparatory work of the treaty, travaux préparatoires, and the circumstances of its conclusion. This volume brings together for the first time the complete travaux to Article 14 of the International Covenant on Civil and Political Rights with reference to the discussion regarding other articles where relevant. It traces the evolution of the text over more than a decade of the drafting process through a number of United Nations bodies. The materials reveal a lengthy and complex process of drafting the Covenant, the intentions of the delegates regarding the interpretation of certain provisions, and those issues that they left open for states parties to decide through their practice. This is a companion volume to *The Right to a Fair Trial in International Law* OUP 2020. **International Documents for the 80's** Theodore D. Dimitrov, L. [Resources and Applied Methods in International Relations](#) Guillaume Devin, 2017-10-18 This book constitutes an up-to-date methodology reference work for International Relations (IR) scholars and students. The study of IR calls for the use of multiple and various tools to try and describe international phenomena, analyze and understand them, compare them, interpret them, and try to offer theoretical approaches. In a nutshell, doing research in IR requires both tools and methods: from the use of archives to the translation of results through mapping, from conducting interviews to analyzing quantitative data, from constituting a corpus to the always touchy interpretation of images and discourses. This volume assembles twenty young researchers and professors in the field of IR and political science to discuss numerous rich and thoroughly explained case studies. Merging traditional political science approaches with methods borrowed from sociology and history, it offers a clear and instructive synthesis of the main resources and applied methods to study International Relations. **Know it All, Find it Fast for Academic Libraries** Heather Dawson, 2012 A comprehensive and easy-to-use version of the best-selling *Know it All, Find it Fast*, developed specifically for information professionals working in academic libraries, this will help you to tackle the questions most commonly asked by students, academics, and researchers.
