Murphy,2006-09-14 The United Nations Development Programme is the central network co ordinating the work of the United Nations in over 160 developing countries This 2006 book provides the first authoritative and accessible history of the Programme and its predecessors Based on the findings of hundreds of interviews and archives in more than two dozen countries Craig Murphy traces the history of the UNDP s organizational structure and mission its relationship to the multilateral financial institutions and the development of its doctrines He argues that the principles on which the UNDP was founded remain as relevant in a world divided by terrorism as they were in the immediate aftermath of the Second World War as are the fundamental problems that have plagued the Programme from its origin including the opposition of traditionally isolationist forces in the industrialized world The United Nations World Water Development Report UNESCO,UNESCO World Water Assessment Programme,2025-04-03 The United Nations World Water Development Report 3 World Water Assessment Programme,2012-05-23 The United Nations World Water Development Report published

every three years is a comprehensive review providing an authoritative picture of the state of the world's freshwater resources. It offers best practices as well as in-depth theoretical analyses to help stimulate ideas and actions for better stewardship in the water sector. It is the only report of its kind resulting from the collaboration and contributions of the 26 UN agencies commissions program funds secretariats and conventions that have a significant role in addressing global water concerns. The news media are full of talk of crises in climate change energy and food and troubled financial markets. These crises are linked to each other and to water resources management. Unresolved they may lead to increasing political insecurity and conflict. Water is required to meet our fundamental needs and rising living standards and to sustain our planet's fragile ecosystems. Pressures on the resource come from a growing and mobile population social and cultural change economic development and technological change. Adding complexity and risk is climate change with impacts on the resource as well as on the sources of pressure on water. The challenges though substantial are not insurmountable. The Report shows how some countries have responded. Progress in providing drinking water is heartening with the Millennium Development Goal target on track in most regions. But other areas remain unaddressed and after decades of inaction the problems in water systems are enormous and will worsen if left unattended. Leaders in the water sector can inform decisions outside their domain and manage water resources to achieve agreed socioeconomic objectives and environmental integrity. Leaders in government the private sector and civil society determine these objectives and allocate human and financial resources to meet them. Recognizing this responsibility they must act now.

Water is a finite and non-substitutable resource. As the foundation of life societies and economies it carries multiple values and benefits. But unlike most other natural resources it has proven extremely difficult to determine its true value. The 2021 edition of the United Nations World Water Development Report titled Valuing Water assesses the current status of and challenges to the valuation of water across different sectors and perspectives and identifies ways in which valuation can be promoted as a tool to help improve its management and achieve global sustainable development. Effectiveness and Reform of the United Nations Development Programme (UNDP) Stephan Klingebiel, 1999

This study is intended as a constructive contribution to the debate on the reform of UN development co-operation **The United Nations world water development report 2018** WWAP, 2018-03-26 **Politics as Usual** Thomas W. Pogge, 2013-04-24

Worldwide human lives are rapidly improving. Education health care technology and political participation are becoming ever more universal empowering human beings everywhere to enjoy security economic sufficiency equal citizenship and a life in dignity. To be sure there are some specially difficult areas disfavoured by climate geography local diseases unenlightened cultures or political tyranny. Here progress is slow and there may be set backs. But the affluent states and many international organizations are working steadily to extend the blessings of modernity through trade and generous development assistance and it won't be long until the last pockets of

severe oppression and poverty are gone Heavily promoted by Western governments and media this comforting view of the world is widely shared at least among the affluent Pogge s new book presents an alternative view Poverty and oppression persist on a massive scale political and economic inequalities are rising dramatically both intra nationally and globally The affluent states and the international organizations they control knowingly contribute greatly to these evils selfishly promoting rules and policies harmful to the poor while hypocritically pretending to set and promote ambitious development goals Pogge s case studies include the 1 day poverty measurement exercise the cosmetic statistics behind the first Millennium Development Goal the War on Terror and the proposed relaxation of the constraints on humanitarian intervention A powerful moral analysis that shows what Western states would do if they really cared about the values they profess Millennium Development Goals Sakiko Fukuda-Parr,2017-07-14 Heralded as a success that mobilized support for development the Millennium Development Goals MDGs ushered in an era of setting development agendas by setting global goals This book critically evaluates the MDG experience from the capabilities and human rights perspectives and questions the use of quantitative targets as an instrument of global governance It provides an account of their origins trajectory and influence in shaping the policy agenda and ideas about international development during the first 15 years of the 21st century The chapters explore whether the goals are adequate as benchmarks for the transformative vision of the Millennium Declaration how the goals came to be formulated the way they were drawing on interviews with key actors who were involved in the process how the goals exercised influence through framing to shape policy agendas on the part of both developing countries and the international community the political economy that drove the formulation of the goals and their consequences on the agendas of the South and the North the effects of quantification and indicators on ideas and action and the lessons to be drawn for using numeric goals to promote global priorities Representing a significant body of work on the MDGs in its multiple dimensions compiled here for the first time as a single collection that tells the whole definitive story this book provides a comprehensive resource It will be of great interest to students researchers and policymakers in the fields of development human rights international political economy and governance by numeric indicators **The United Nations world water development report, 2017** WWAP,UNESCO,2017-03-15 The United Nations World Water Assessment Programme WWAP is hosted and led by UNESCO WWAP brings together the work of 31 UN Water Members and 38 Partners to publish The United Nations World Water Development Report WWDR series The annual World Water Development Reports focus on strategic water issues UN Water Members and Partners all experts in their respective fields contribute the latest findings on a specific theme The 2017 edition of the World Water Development Report focuses on Wastewater and seeks to inform decision makers inside and outside the water community about the importance of managing wastewater as an undervalued and sustainable source of water energy nutrients and other recoverable by products rather than something to be disposed of or a nuisance to be ignored The report s title Wastewater The Untapped Resource reflects the critical role

that wastewater is poised to play in the context of a circular economy whereby economic development is balanced with the protection of natural resources and environmental sustainability and where a cleaner and more sustainable economy has a positive effect on the water quality Improved wastewater management is not only critical to achieving the Sustainable Development Goal on clean water and sanitation SDG 6 but also to other goals of the 2030 Agenda for Sustainable Development

Human Development Report 2005 United Nations Development Programme, 2005 The Human Development Report 2005 examines the scale of the challenge facing the world at the start of the ten year countdown to the 2015 Millennium Development Goals mark The Report focuses on three pillars of cooperation each of which is in urgent need of renovation The first pillar is international aid the Millennium Development Goals MDGs project has been compromised by chronic and sustained under financing allied to problems in aid quality The second pillar is international trade Under the right conditions trade can act as a powerful catalyst for human development The development round of World Trade Organization talks launched in 2001 provided northern governments with an opportunity to create those conditions The third pillar is that of security violent conflict is a source of systematic human rights violation and a barrier to progress towards the MDGs that must be overcome

UN Contributions to Development Thinking and Practice Richard Jolly, 2004 The authors argue that the UN Charter is infused with the human values human concerns that are at the centre of the UN's thinking on economic human development today They show how the UN's approach to development has evolved to include a broad range of social issues from poverty reduction to equality

The United Nations world water development report 2016: water and jobs UNESCO, 2016-02-29 The United Nations World Water Assessment Programme WWAP is hosted and led by UNESCO WWAP brings together the work of 31 UN Water Members as well as 38 Partners to publish The United Nations World Water Development Report WWDR series The annual World Water Development Reports focus on strategic water issues UN Water Members and Partners all experts in their fields contribute with latest findings on a specific theme This edition of the World Water Development Report focuses on Water and Jobs and seeks to inform decision makers inside and outside the water community about the importance of the water and jobs nexus for the social and economic development and environmental sustainability of countries rich and poor The importance of water for jobs across economies is such that this report could be subtitled No water No jobs Indeed a great majority of jobs are dependent upon water and therefore increasingly at risk under conditions of water scarcity

Economics of Development A.P. Thirlwall, Penélope Pacheco-López, 2017-09-16 This classic bestselling textbook provides a comprehensive introduction to the field of development economics The 10th edition of Tony Thirlwall's book now co-written with Penélope Pacheco-López provides a clear comprehensive and rigorous introduction to the theory of development economics and the experience of developing countries Balancing a historic approach with current data and references it provides a wide ranging analysis of the subject This all inclusive methodology succeeds at representing different schools of thought with a balance of micro and macro topics
