Dynamics in the French Constitution David Marrani, 2013-10-08 The promulgation of the Fifth French Republic Constitution in 1958 marked the end of a complex constitutional history that has since 1789 seen more than twenty constitutions and five Republics Lasting now for more than fifty years the Fifth Republic Constitution has proven to be the right settlement for the French people a consensual text However while offering the appearance of stability the Fifth French Republic Constitution has often been reconsidered and changed not least in the year of its fiftieth anniversary when the Constitution was modernised These dynamics of the Fifth Republic Constitution are neither a recent matter nor entirely the result of the successive constitutional amendments Instead the history of the Constitution has involved the resurgence of repressed archaic elements from the ancient regime while the social economic and environmental contexts have penetrated not only the text itself but more extensively its spirit and behind it the philosophy and our perception of the Republic In Dynamics in the French Constitution David Marrani questions the foundations of the French Fifth Republic In using specific themes current and traditional debates contemporary and archaic factors that have enlightened the road of long lasting Republic the book explores some of the changes of the last fifty years and the tensions that are present within the constitutional text In combining theoretical concepts of constitutional law with key contemporary and historical developments such as the European integration the response to environmental challenges the practice of human rights and the pillars supporting French republicanism this book offers varied and creative tools for a better understanding of the Republic of today

Rachel Douglas,2009-06-16 Rewriting in the context of critical work on Caribbean literature has tended to be used to discuss revisionism from a variety of postcolonial perspectives such as rewriting history or rewriting canonical texts By shifting the focus to how Caribbean writers return to their own works in order to rework them this book offers theoretical considerations to postcolonial studies on literariness in relation to the near obsessive degree of rewriting to which Caribbean writers have subjected their own literary texts Focusing specifically on FrankZtienne this book offers an overview of how the defining aesthetic and thematic components of FrankZtienne s major works have emerged over the course of his forty year writing career It reveals the marked development of key notions guiding his literary creation since the 1960s and demonstrates that rewriting illustrates the central aesthetic of the Spiral which has always shaped his Iuvre It is the book argues the constantly moving form of the Spiral which FrankZtienne explores through his constant reworking of his previously written texts FrankZtienne and Rewriting negotiates between the literary and material ends of the burgeoning field of postcolonial studies arguing that literary characteristics in FrankZtienne connect with changing political social economic and cultural circumstances in the Haiti he rewrites *Urban Bridges, Global Capital(s)* Claire Launchbury,Megan C.

MacDonald,2021-01-31 Claire Launchbury and Megan C MacDonald s edited collection of essays offers a series of comparative analyses of the literary and filmic texts contexts and crossings of the Mediterranean region The book immediately illustrates the breadth depth and interdependenc of what has become known as Mediterranean Studies The collection expands the borders of the Medite ranean space and posits it as a place of constant identitarian and linguistic interrogation for both those who occupy it and those who document it This collection will be a valuable resource for scholars who are looking for a contemporary and comprehensive entry point into Mediterranean Studies With its focus on transnationalisms genre and border crossings and complicated identities in the constantly reinvented and reinventing space of the Mediterranean Launchbury and MacDonald s collection offers a wealth of literary and cultural routes to follow Maria Vendetti Studies in 20th 21st Century Literature **Ibbs and Tillett** Christopher Fifield,2017-11-22 For the greater part of the twentieth century Ibbs and Tillett s concert agency was to the British music industry what Marks and Spencer is to the world of the department store The roll call of famous musicians on its books was unmatched and included such international stars as Clara Butt Fritz Kreisler Pablo Casals Sergei Rachmaninov Andr Segovia Kathleen Ferrier Myra Hess Jacqueline du Pr Clifford Curzon and Vladimir Ashkenazy to name but a handful From 1906 the success of the company was due to the dedication of its founders Robert Leigh Ibbs and John Tillett After their deaths the agency was run by the latter s wife Emmie who dubbed the Duchess of Wigmore Street became one of the most formidable yet respected women in British music The

history of this unique institution and its owners is told here for the first time often through the fascinating letters that were exchanged between the artists themselves and the agency It begins in the latter years of the 19th century with the concert and theatrical manager Narciso Vert for whom both Ibbs and Tillett worked until his death in 1905 The story then becomes a history of musical life in twentieth century Britain illuminating aspects of the day to day management of concerts and festivals the lives and livelihoods of professional musicians as well as those who strove to join their ranks through audition or recommendation The changing profile and particularly the onset and development of personal management of artists represented by Ibbs and Tillett and their reception in the press can be viewed as a barometer of musical taste The demise of the agency in 1990 was indicative of just how much the world of British music had changed by the end of the century but despite its loss to the profession the legacy and influence of Ibbs and Tillett has remained a benchmark in today s highly competitive world of artist management and concert promotion many of whose principal operators began
