University on the Border Lis Lange, Vasu Reddy, Siseko H. Kumalo, 2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall. The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution, idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally. The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border. The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution: the university.

Humanizing LIS Education and Practice Keren Dali, Nadia Caidi, 2020-10-29 Humanizing LIS Education and Practice Diversity by Design demonstrates that diversity concerns are relevant to all and need to be approached in a systematic way. Developing the Diversity by Design concept articulated by Dali and Caidi in 2017, the book promotes the notion of the diversity mindset. Grouped into three parts, the chapters within this volume have been written by an international team of seasoned academics and practitioners who make diversity integral to their professional and scholarly activities. Building on the Diversity by Design approach, the book presents case studies with practice models for two primary audiences: LIS educators and LIS practitioners. Chapters cover a range of issues including but not limited to academic promotion and tenure, the decolonization of LIS education, engaging Indigenous and multicultural communities, librarians' professional development in diversity and social justice, and the decolonization of library access practices and policies. As a collection, the book illustrates a systems thinking approach to fostering diversity and inclusion in LIS, integrating it by design into the LIS curriculum and professional practice. Calling on individuals, organizations, policymakers and LIS educators to make diversity integral to their daily activities and curriculum, Humanizing LIS Education and Practice Diversity by Design will be of interest to anyone engaged in research and professional practice in Library and Information Science.
