Talent Identification and Development in Youth Soccer Adam Kelly, 2023-09-11 Talent development pathways in youth soccer provide opportunities for young players to realise their potential. Such programmes have become increasingly popular throughout governing bodies, professional clubs and independent organisations. This has coincided with a rapid rise in sport science literature focused specifically on optimising player development towards expertise. However, the decreasing age of recruitment, biases in selection, inconsistencies in the language used, underrepresented populations and large dropout rates from pathways have magnified the potential flaws of existing organisational structures and settings. Moreover, despite both the professionalisation of talent development pathways and growing research attention, we still know little about the characteristics that facilitate accurate recruitment strategies into pathways and long-term development outcomes. *Talent Identification and Development in Youth Soccer* provides an all-encompassing guide for both researchers and practitioners by gathering the existing literature to help better understand the current context of this discipline. Chapters are contributed by a team of leading and emerging international experts examining topics such as technical, tactical, physical, psychological, social activities and trajectories, career transitions, relative age effects, creativity and genetics, with each chapter offering important considerations for both researchers and practitioners. With a dual emphasis on both theory and practice, this book is an important text for any student, researcher, coach or practitioner with an interest in talent identification, talent development, youth soccer, soccer coaching or expertise and skill acquisition.

The Organisation and Governance of Top Football Across Europe Hallgeir Gammelsæter, Benoit Senaux, 2011-07-07 This book aims to provide an extensive overview of how football is organized and managed on a European level and in individual European countries and to account for the evolution of the national, international and transnational management of football over the last decades.

The present volume covers decisions rendered by the Court of Arbitration for Sport (CAS) and national courts in 2015. It is a must-have for sports lawyers and arbitrators as well as researchers engaged in this field. It provides in-depth articles on burning issues raised by international sports arbitration and independent commentaries by esteemed academics and seasoned practitioners on the most important decisions of the CAS, e.g. the Dutee Chand case and national courts, e.g. the Pechstein and Wilhelmshaven decision rendered by the OLG München and OLG Bremen in Germany. Dr Antoine Duval is Senior Researcher for International and European Sports Law at the T.M.C. Asser Instituut in The Hague. He holds a Ph.D. on the interaction between Lex Sportiva and EU Law from the European University Institute in Florence. Prof. Antonio Rigozzi teaches international arbitration and sports law at the University of Neuchâtel, Switzerland, and is the partner in charge of the sports arbitration practice at Lvy.
