Advancing the Ugandan Economy Ezra Sabiti Suruma, 2014-04-30 Internal conflicts dictatorship and economic disintegration characterized the first twenty five years of Uganda's independence from British colonial rule which culminated in the reign of Idi Amin and a violent civil war The country has since achieved an astounding turnaround of stability and growth *Advancing the Ugandan Economy* is a first hand look at the remarkable policy changes that took place from 1986 to 2012 and their effect in contrast with the turbulent events after independence Ezra Suruma held several key positions in the Ugandan government during the nation's transition period including minister of finance His insightful recounting of those times demonstrates that African countries can achieve economic stability and sustain rapid growth when they meet at least two interdependent conditions establishing a stable and secure political framework and unleashing entrepreneurialism Suruma also highlights the strategic areas that still require fundamental reform if Uganda is to become a modern state and shares his vision for the future of his country Rarely in African history has so much positive political and economic transformation of a country been achieved in such a short time Suruma's account of the commitment determination vision and dexterity of the Ugandan government holds invaluable lessons in managing the still complex policy challenges facing the African continent

Uganda, 1993 Assesses Uganda's urgent social problems lack of education poor health and high population growth and means for alleviating them This study concludes that if Uganda's social conditions among the world's worst are to improve social spending must be both increased and better allocated Three areas are considered critical Education Although the great majority of children enter primary school by secondary school enrollment drops to only 13 percent overall and to 7 percent for girls This dropout rate is largely attributed to high fees and poor learning conditions The study recommends expanding access to primary education by restructuring government expenditure and private spending Health Uganda's infant mortality is 70 percent higher than the average among low income countries and its death rate is double the average Because the leading causes of illness and death are preventable albeit sometimes with great difficulty the study recommends that health policy be reoriented toward public health and prevention Family planning Given that up to 70 percent of women have a favorable attitude toward family planning the study recommends that the urgent problem of high fertility be immediately addressed by making family planning services widely available The report stresses that government policies should take into account the interrelationships among social problems for example the correlation of low female education to high fertility infant mortality and child malnutrition

Preserving Order Amid Chaos John Rhodes Paige, 2000 To say that education in Africa is under stress is all too obvious News reports from that continent seem to describe only war and violence poverty and malnutrition corruption and mismanagement or natural disasters that destroy or threaten already frail infrastructures most news from Africa is bad news When an education system survives in a country like Uganda long subjected to the whims of despotic leadership it warrants an investigation This book tells the story of four senior secondary

schools during a time of war and intractable social conflict examining a complex topic through multiple perspectives such as documentary history oral history ethnography and organization theory The author develops a broad picture of the Amin Obote years and the accompanying political and social chaos in Uganda while at the same time filling in the crucial details essential for developing an understanding of school survival in the Kaborole District The author's intensive field work gives this study a unique dimension by preserving a record of African voices students teachers parents alumni board members community leaders a rich tableau of the local conditions for school survival emerges At the same time the discussion is situated within the larger Ugandan historical and political context thus offering an excellent example of the application of multiple research perspectives to a complex social cultural and political setting
