Higher Education ICT Integration in Africa Ke Yu, Reuben Dlamini, 2024-08-21. This multidisciplinary edited volume examines higher education's ICT integration in Africa, contributing a new and inclusive change readiness framework to better understand how to manage ICT or other technological disruptions in resource-restrained contexts. Tackling ICT incorporation in HEIs from different levels, chapters document case studies from countries such as Uganda, South Africa, Rwanda, Eswatini and Zimbabwe to demonstrate both the complexity of integration but also the successes it has enabled and under which conditions. The cases included in this book also exhibit better incorporation of both change content and process, while some cases also make explicit reference to other technology adoption models. Ultimately, the book highlights conceptual and empirical research to inform practices and policy development in Africa, improving multi-level success or change readiness in ICT incorporation in HEIs in Africa. Addressing various gaps in existing literature and proposing innovative solutions like the multilevel change readiness model, this book will therefore be of interest to scholars, researchers and academics in the fields of higher education, ICT integration and educational technology more broadly. Developmental Integration and Industrialisation in Southern Africa Siphumelele Duma, 2023-05-18 Since the beginning of decolonisation in Africa regional integration has become one of the most potent defining characteristics of the continent's quest for industrialisation and sustainable development. It was understood that the individual continental economies could not achieve the requisite level of industrial development to meet their respective development objectives due to the colonial policy of balkanisation which divided the continent into small economically unviable units. In 1992 the Southern African Development Community (SADC) adopted developmental integration an approach to regional integration to engender industrialisation and address the region's development challenges. This book offers a critical assessment and examination of this approach as to how it has influenced the industrialisation process in Southern Africa. If so why has it failed to accelerate the region's industrialisation and structural transformation process. It contributes significantly to cross-cutting development debates on the African continent particularly in southern Africa. More importantly in understanding the nexus between developmental integration and industrialisation.

Candlestick Cove and the San Francisco Marina, 1960 *Sugar and Settlers* Duncan L. Du Bois, 2015-09-01 Duncan Du Bois provides a detailed and fascinating history of a hitherto much neglected part of what was the colony of Natal. Based primarily on original archival research he traces the southward advance of the white settler frontier and its sugar-based economy from Isipingo to the Mzimkulu river and without the sugar engine to the Mtamvuna.
