*Radio, Public Life and Citizen Deliberation in South Africa* Sarah Chiumbu, Gilbert Motsaathebe, 2021-05-24 This book critically analyses the important role of radio in public life in post apartheid South Africa As the most widespread and popular form of communication in the country radio occupies an essential space in the deliberation and the construction of public opinion in South Africa From just a few state controlled stations during the apartheid era there are now more than 100 radio stations reaching vast swathes of the population and providing an important space for citizens to air their views and take part in significant socio economic and political issues of the country

The various contributors to this book demonstrate that whilst print and television media often serve elite interests and audiences the low cost and flexibility of radio has helped it to create a common space for national dialogue and deliberation. The book also investigates the ways in which digital technologies have enhanced the consumption of radio and produced a sense of imagined community for citizens including those in marginalised communities and rural areas. This book will be of interest to researchers with an interest in media politics and culture in South Africa specifically as well as those with an interest in broadcast media more generally. *Smart Technologies in Data Science and Communication* Kingsley A.

Ogudo, Sanjoy Kumar Saha, Debnath Bhattacharyya, 2023-01-01. This book features high quality peer reviewed research papers presented at the Fifth International Conference on Smart Technologies in Data Science and Communication SMARTDSC 2022 held Koneru Lakshmaiah Education Foundation Guntur Andhra Pradesh India on 16-17 June 2022. **Fees Must Fall** Susan Booysen, 2016-10-01. This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt. FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa. More broadly it radically questioned the socio-political dispensation resulting from the 1994 social pact between big business, the ruling elite and the liberation movement. The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left. Yet its objectives are more complex than those of earlier struggles. The student movement has challenged the hierarchical top-down leadership system of university management and its double-speak of professing to act in workers and students' interests yet entrenching a regressive system for control and governance. University managements while on one level amenable to change have also co-opted students into their ranks to create co-responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights and meaningful education. In-depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance and offer provocative analyses of the power of the revolt. **Global Security, Safety, and Sustainability**

Sergio Tenreiro de Magalhaes, Hamid Jahankhani, Ali G. Hessami, 2010-08-19. The annual International Conference on Global Security, Safety and Sustainability ICGS3 is an established platform in which security, safety and sustainability issues can be examined from several global perspectives through dialogue between academics, students, government representatives, chief executives, security professionals and research scientists from the United Kingdom and from around the globe. The three-day conference focused on the challenges of complexity, rapid pace of change and risk/opportunity issues associated with modern
