puissance et la complexité de la globalisation et des réseaux certaines œuvres d'artistes contemporains répondent par un mouvement sensible vers le chez soi. Ce que nous avons appelé art domestique reste un phénomène polymorphe qui invite à penser notre mise en demeure entendue la fois comme abandon du corps au confort au domicile et comme indulgence à chapper aux agressions du monde extérieur. C'est pourquoi les choses ne s'arrangent pas tant les pressions sociales et économiques incitent les gens à rentrer la maison tant le modelage des enfants et les techniques managériales sont loin encore d'être quitablement partagées. C'est aussi que l'habitat en tant que volume enveloppant a son charme son intimité sa privauté. Des bricolages dominicaux aux technologies subtiles de la domotique chacun s'exerce sa créativité. Est-ce au sein ou en marge de la maison qu'il faut situer la présence des crans et des alarmes le foyer et le visuel l'arbre de Noël ou les nains de jardin. Quand la voiture sort du garage c'est la maison qui roule ses fauteuils sa radio sa clim. En quoi l'art contemporain est-il imprégné d'un art de vivre commun voire d'une conscience critique du quotidien que l'on pourrait qualifier de domestique résumé dit.

Hall, Michael Lamont, 2013-04-22 What is the impact of three decades of neoliberal narratives and policies on communities and individual lives? What are the sources of social resilience? This book offers a sweeping assessment of the effects of neoliberalism the dominant feature of our times. It analyzes the ideology in unusually wide ranging terms as a movement that not only opened markets but also introduced new logics into social life integrating macro level analyses of the ways in which neoliberal narratives made their way into international policy regimes with micro level analyses of the ways in which individuals responded to the challenges of the neoliberal era. The product of ten years of collaboration among a distinguished group of scholars it integrates institutional and cultural analysis in new ways to understand neoliberalism as a syncretic social process and to explore the sources of social resilience across communities in the developed and developing worlds.
