

BODYGUARD TRAINING MANUAL

VIP - CLOSE PROTECTION

We'll define 'detail' a little later in the chapter. Note that the close protection detail commander is in charge of everyone who may be involved in protection operations, not just CPOs. Usually, management at the agency's offices will take care of the administrative side of operations, together with the advance team.

Personal escort section (PES) team

The close protection operatives that accompany the principal during all movements, from point A to B and back to A, are called the personal escort section (PES) team. It is their task to cover and evacuate the principal in the event of an attack or other emergency. Usually the principal may not move without them. The team may comprise 2 to 18 members, but usually has from 5 to 9 members. As well as the skills we'll cover, PES team members need practical skills, such as unarmed combat skills, which you'll learn in your practical training. They must be prepared to die for the principal! All team members have equal skills and status. To be promoted beyond the team, members must complete an advanced course. The PES team includes the bodyguard and a team leader.

Bodyguard (sometimes called the 'main bodyguard')

The bodyguard, or 'main' bodyguard, usually the biggest member of the PES team, never leaves the principal's side during an operation. He or she drives together with the principal, and along with the team leader directs the efforts of the team, radioing the leader with updates of the principal's movements and to ask for clearance.

Close protection team leader (TL)

The team leader (TL) is responsible for leading a close protection or PES team, and supervising the team's tasks and activities during a protective operation (using two-way radios). For instance, the TL gives the bodyguard clearance to proceed from a car or building. Team members may take turns at being TL (except for the bodyguard, who always stays with the principal). The TL must establish a sound working relationship with principals, so as to assess their needs and to inform them of protection measures.

In some operations the team leader may also act as operational commander, which we'll define a little later.

The number of members in the PES team will vary widely and depend on the risk factor and the client's finances. For example, in a low-risk situation, just one bodyguard, say to protect a businessperson, could be sufficient. If the VIP received a direct physical threat, this would constitute a medium- to high-risk threat, and the team should include at least between two and six CPOs. If the VIP was a very high-profile person who had received a recent death threat, the team should comprise between seven and twelve members.

As a general rule, you will always be safe with a seven-person team.

Advance team

The advance team comprises a member or members of the close protection team who go ahead of the PES team to secure a venue that the principal will visit. A useful team size is five members. The advance team is responsible for planning and implementing effective close protection measures at the venue, 'sweeping' or examining the building and keeping it 'sterile' or safe. As in the PES team, all team members have equal status.

For example, a hotel placement with a six-person advance team would proceed as follows. After the clearance process, also known as sweeping, one CPO would check the hotel room, one CPO the level above the principal room, one CPO the lift, passage and top of the stairway, one CPO the ground floor, lift and stairway, one CPO the lobby and reception desk, and one CPO would sweep the hotel entrance and parking area and then wait outside for the VIP.

During the planning phase of an operation, the advance team will visit all venues that the principal may visit, a day or a few hours in advance. They will plan and familiarise themselves with all routes that the principal's vehicle may take, including contingency routes. They will map out and study every detail of the operation together with management and

Vip Close Protection Training Manual
