Virgin Territory Exploring The World Of Olive Oil:

Virgin Territory Nancy Harmon Jenkins, 2015 Olive oil is one of the world's most essential and ubiquitous cooking ingredients but how much do we really know about it? Where does it come from? How is it made and what exactly does extra virgin mean? Nancy Harmon Jenkins, a leading authority on olive oil and the healthy Mediterranean diet, covers all of these questions and more in *Virgin Territory* as she explores what makes fine extra virgin, how to choose it and use it, and how to avoid frauds and scams. An illuminating look at the history and culture of olive oil as well as the science behind its flavors and its role in a healthy diet, this book details how Jenkins began her own passionate foray into olive oil and how she ended up with a 25-acre Tuscan olive farm where she and her offspring produce their own lush green spicy oil. Far more than a cookbook, *Virgin Territory* includes more than 100 recipes showcasing this versatile and healthful ingredient. No matter what recipe you choose, Jenkins guides you in creating a delectable dish made better with olive oil. Along with a wealth of information and exquisite recipes, there are also striking photographs of the Mediterranean style dishes and Jenkins' own olive grove in Tuscany. A rich and engrossing survey, *Virgin Territory* is the ultimate resource for everything olive oil. **Food and**

World Culture Linda S. Watts, Keltie Clark-Mahoney, 2022-08-23 This book uses food as a lens through which to explore important matters of society and culture. In exploring why and how people eat around the globe, the text focuses on issues of health, conflict, struggle, contest, inequality, and power. Whether because of its necessity, pleasure, or ubiquity, the world of food and its lore proves endlessly fascinating to most people. The story of food is a narrative filled with both human striving and human suffering. However, many of today's diners are only dimly aware of the human price exacted for that comforting distance from the lived world, realities of food justice struggles. With attention to food issues ranging from local farming practices to global supply chains, this book examines how food's history and geography remain inextricably linked to sociopolitical experiences of trauma connected with globalization, such as colonization, conquest, enslavement, and oppression. The main text is structured alphabetically around a set of 70 ingredients, from almonds to yeast. Each ingredient's story is accompanied by recipes. Along with the food profiles, the encyclopedia features sidebars. These are short discussions of topics of interest related to food, including automats, diners, victory gardens, and food at world's fairs. This project also brings a social justice perspective to its content, weighing debates concerning food access, equity, insecurity, and politics. Pasta Veloce
