7.1 Vision System Overview

The 3DHD Vision System provides a high resolution image for the surgeon (at the 3D viewer) and the patient-side assistant (at the touchscreen). The 3DHD endoscope assembly (endoscope and camera head) can be used manually (that is, handheld, as with a traditional endoscopy cart) or can be mounted on the camera arm to assist with preoperative exploration.

Figure 7.1 Vision system components

Note: The *da Vinci Si* System must be used only with ISI approved or supplied cameras, endoscopes, accessories and image processing equipment. This ensures optimal image quality and *da Vinci Si* System performance.

CAUTION: Surgery should be performed with the *da Vinci Si* System only when the vision system provides sufficient visualization to safely perform surgical tasks.

Christensen,1998-12-18 Computer Vision has now reached a level of

maturity that allows us not only to perform research on individual methods but also to build fully integrated computer vision systems of a significant complexity. This opens up a number of new problems related to architectures, systems integration, validation of systems using benchmarking techniques and so on. So far the majority of vision conferences have focused on component technologies which has motivated the organization of the First International Conference on Computer Vision Systems (ICVS). It is our hope that the conference will allow us not only to see a number of interesting new vision techniques and systems but hopefully also to define the research issues that need to be addressed to pave the way for more wide scale use of computer vision in a diverse set of real world applications. ICVS is organized as a single track conference consisting of high quality previously unpublished contributed papers on new and original research on computer vision systems. All contributions will be presented orally. A total of 65 papers were submitted for consideration by the conference. All papers were viewed by three reviewers from the program committee. Thirty two of the papers were selected for presentation. ICVS 99 is being held at the Alfredo Kraus Auditorium and Convention Centre in Las Palmas on the lovely Canary Islands, Spain. The setting is spri like which seems only appropriate as the basis for a new conference.
