## SAP SRM - Overview

SAP SRM (Supplier Relationship Management) is a SAP product that facilitates the procurement of goods via a web-based platform. Organizations can procure all type of products like direct and indirect material, services and this can be integrated with SAP ERP modules and other non-SAP backend systems for accounting and planning.

SAP SRM allows you to optimize your procurement process to work effectively with suppliers to get long term benefits and also to perform forecasting, procurement cycle and to work with partners. You can reduce the time span and costing of procurement cycle using innovative methods to manage business processes with key suppliers.

SAP SRM supports the full procurement cycle, i.e., starting from source and purchase to pay through complete procurement process with suppliers and effectively managing supplier to build long-term relationship.

SAP SRM helps you to emphasize supplier performance management and helps you to streamline the procurement operations, put compliance with contracts and purchasing policies, and improve overall cost management and expenditure.

### Key Benefits and Functionalities

There are various benefits and key functionalities that you can achieve by using SAP SRM product and by integrating with other SAP ERP modules and non-SAP systems for planning and optimization.

Following are the key benefits of SAP SRM –

#### Catalog Management

Suppliers can easily manage catalog data and this data can easily be integrated with business processes like accounting, finance and planning.

#### Procure to Pay Optimization
