Saps Security Guard Vacancies In State:

Employment Security Review, 1958 *Private Security in Africa* Doctor Paul Higate, Mats Utas, 2017-06-15 Across Africa growing economic inequality instability and urbanization have led to the rapid spread of private security providers While these PSPs have already had a significant impact on African societies their impact has so far received little in the way of comprehensive analysis Drawing on a wide range of disciplinary approaches and encompassing anthropology sociology and political science *Private Security in Africa* offers unique insight into the lives and experiences of security providers and those affected by them as well as into the fragile state context which has allowed them to thrive Featuring original empirical research and case studies ranging from private policing in South Africa to the recruitment of Sierra Leoneans for private security work in Iraq the book considers the full implications of PSPs for security and the state not only for Africa but for the world as a whole

Employment Security Review United States. Bureau of Employment Security, 1958 **Unshackling the Crime Fighters** Martin Schönteich, 1999 **Diepsloot** Anton Harber, 2011-05-03 In a little more than a decade Diepsloot has transformed from a semi rural expanse to a dense seething settlement of about 200 000 people A post apartheid creation lying to the north of Johannesburg Diepsloot is talked about as a place of fear vigilante justice xenophobic violence and a haven for criminals and undocumented foreigners Respected journalist Anton Harber spent several months there meeting the people drinking in the taverns and probing the bitter local political battles He patrolled with volunteer crime fighters at night He spoke to politicians church members and artists He interviewed city officials asking them why so little progress was being made in developing Diepsloot He investigated why the much need police station stands unfinished Amidst the poverty violence and chaos he found a bustling place much loved by its inhabitants an active economy with all the associated hustling and trading He found people who when neglected by the state made their own solutions Most of all I learned that if you want to understand where this country is headed you need to listen to the people of Diepsloot Hear what they are saying Take note of their hopes and aspirations You might be surprised Diepsloot is the first study of its kind that seeks to understand change as it is lived on the ground and not as it is talked about in the media and corridors of power Rich with detail and local colour it offers a nuanced examination of life as it is lived despite the State with its half completed police station and the ANC with its internecine warfare JACOB DLAMINI

Police Work and Identity Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of

ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street Urbanization, Policing, and Security Gary Cordner, Dilip K. Das, AnnMarie Cordner, 2009-12-16 In terms of raw numbers the amount of world urban dwellers have increased four fold skyrocketing from 740 million in 1950 to almost 3.3 billion in 2007 This ongoing urbanization will continue to create major security challenges in most countries Based on contributions from academics and practitioners from countries as diverse as Nigeria Pakistan Better Choices Greg Mills, Mcebisi Jonas, Haroon Bhorat, Ray Hartley, 2022-04-01 A must read accessible and skilful account of South Africa s socio economic challenges policy and governance choices THEMBA MASEKO All the numbers on South Africa s crisis dashboard are blinking red The economy is failing to grow and more and more young people find themselves on the outside looking in as education falters and jobs disappear Energy and transport are in crisis Governance is floundering as debt mounts and government runs out of money Better Choices is a collection by South Africa s top thinkers on the political economy providing an unflinching account of the myriad challenges the country faces The picture that emerges is of a nation on the brink of a catastrophic slide into failure unless better if tough policy choices are made As stark as these problems are their solutions are tantalisingly close at hand The chapters in this book outline exactly the solutions those better choices that need to be made by leadership to alter the country s bleak trajectory South Africa cannot talk its way out of trouble Key to success is removing the sources of friction the red tape over regulation and rents that slow down investment This is only possible if a more effective focused government acts decisively Compiled by The Brenthurst Foundation Africa s leading think tank on economic development Better Choices is for those who want to build a positive inclusive future for South Africa Crime and Conflict, 1998 *Zuma Exposed* Adriaan Basson, 2012-11-15 This is the book President Jacob Zuma does not want you to read From Shaik to The Spear award winning investigative journalist Adriaan Basson reveals the truth behind Jacob Zuma s presidency of the ANC and South Africa From one bad decision to another this explosive roller coaster account traces the unravelling of a likeable but deeply flawed leader who came to power as victim not visionary Basson forensically unpacks the charges against Zuma and reveals a president whose first priority is to serve and protect his own rather than the 50 million people he was elected to lead To be published on the eve of the ANC elective conference in Mangaung this is essential reading for any South African who cares

about the country they live in **Police Behavior, Hiring, and Crime Fighting** John A. Eterno, Ben Stickle, Diana Scharff Peterson, Dilip K. Das, 2021-09-27 This edited collection by internationally recognized authors provides essays on police behavior in the categories of police administration police operations and combating specific crimes Individual chapters strike at critical issues for police today such as maintaining the well being of officers handling stress hiring practices child sexual exploitation gunrunning crime prevention strategies police legitimacy and much more Understanding how police are hired and behave is a way of understanding different governments around the world The book will cover the practices of countries as diverse as China Germany India Japan Turkey South Africa the United States and others Readers will be exposed to aspects of police that are rarely if ever explored The book is intended for a wide range of audiences including law enforcement and community leaders and students of criminal justice *Parliaments' Contributions to Security Sector Governance/Reform and the Sustainable Development Goals* Wilhelm Janse van Rensburg, Nicolette van Zyl-Gous, Lindy Heineken, 2022-02-24 The United Nations Sustainable Development Goal SDG 16 calls for the establishment of peaceful just and inclusive societies The security sector has the potential to contribute to SDG16 through the fulfilment of its traditional and non traditional security tasks However the security sector can also detract from SDG16 when it acts outside the confines of the law Good governance of the sector is therefore a prerequisite to achieving SDG16 and parliaments can make an important contribution to accountability and good governance Parliaments contribute to both transparency and accountability of the sector through their various functions and act as a counterweight to executive dominance including in the executive's use of security forces Yet in times of crisis states run a risk of executive dominance and executives are often quick to resort to the use of the security sector to address an array of challenges This risk also emerged during the global Covid 19 pandemic where states used the security sector notably the military and police in various ways to respond to the pandemic This study reviewed the utilisation of the security sector in South Africa the Philippines and the UK during the first year of the Covid 19 outbreak resulting in varied outcomes ranging from positive humanitarian contributions to misconduct and brutality that led to the death of citizens The initial lockdowns in these countries constrained parliamentary activity resulting in a lack of adequate parliamentary oversight of security sector utilisation when it was most needed Parliaments did recover oversight of the sector to varied degrees but often with limited depth of inquiry into the Covid 19 deployments To prevent the security sector from detracting from SDG16 the study identified a need for a rapid parliamentary reaction capability to security sector utilisation especially in cases of extraordinary deployments coupled with an elevated risk of executive dominance *Globalization, Human Security, and the African Experience* Caroline Thomas, Peter Wilkin, 1999 Eleven contributions explore security from a human rather than a state perspective and illustrate this by drawing on case material from sub Saharan Africa They offer an alternative to the realist state centered militaristic male dominated terrain of orthodox security and strategic studies and study such issues as feminist perspectives justice economic genocide in Rwanda

The Politics of Neoliberal Reforms in Africa Piet Konings, 2011 Neoliberalism has become the dominant development agenda in Africa Faced with a deep economic and political crisis African governments have been compelled by powerful external agencies in particular the Bretton Woods institutions and western states to pursue this agenda as a necessary precondition for the receipt of development aid What is particularly striking in Africa however is that neoliberal experiments there have displayed such remarkable diversity This may be due not only to substantial differences in historical economic and political trajectories on the African continent but also and maybe more importantly in the degree of resistance internal actors have demonstrated to the neoliberal reforms imposed on them This book focuses on Cameroon which has had a complex economic and political history and is currently witnessing resistance to the neoliberal experiment by the authoritarian and neopatrimonial state elite and various civil society groups It is the culmination of over twenty years of fine and refined research by one of the leading scholars of Cameroon today

Security, Governance, and State Fragility in South Africa Edward L. Mienie, 2020-03-06 Do existing measures of state fragility measure fragility accurately Based on commonly used fragility measures South Africa SA is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that SA may be suffering from latent state fragility Based on a comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the security system especially with respect to the police system and mounting economic challenges may be undermining the stability of SA in ways undetected by commonly used measures of state fragility Using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make South Africa a latently fragile state Conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility Practically this study offers a number of concrete policy recommendations for how South Africa may address mounting levels of latent state fragility

for Wildlife Conservation and Natural Resource Management Toshio Meguro, Chihiro Ito, 2021-10-01 This book focuses on two specific areas wildlife conservation policies and projects and the interaction between local societies and the surrounding environment in Africa Against the internationally dominant approach that regards Africa as being a state of deficiency this book demonstrates based on fieldwork concerning various natural resources e g wildlife forests fruit fish and land as well as many famous protected areas that African people are collectively and actively trying to solve the environmental problems they are facing by strategically utilising both indigenous means and new extrinsic opportunities Meanwhile it also becomes clear that wildlife conservation still continues to cause local societies a multitude of problems and the potentials of local people and societies are existing but unnoticed and suppressed by powerful outsiders and therefore remaining informal and invisible
