**Police Integrity in South Africa** Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement In 1994 as the country's apartheid system was replaced with a democratic order the new government faced the significant challenge of transforming the South African police force into a democratic police agency the South African Police Service SAPS that would provide unbiased policing to all the country's people More than two decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping police integrity A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations

**Police Work and Identity** Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing

looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street Pediatric Nutrition in Practice Berthold Koletzko,Zulfiqar A. Virdee,2020-05-21 As the European Union seemingly teetered from a financial crisis to an immigration crisis around 2015

and onwards discourses of race appeared to congeal in various member states. In some instances these came with familiarly essentialist constructions; in others these were refracted cautiously through concerns about security, national and cultural integrity, distribution of public resources and employment and so on. New political alignments surfaced on the back of such concerns and established organizations changed their agendas accordingly. The border regimes of EU member states became increasingly fraught both in terms of their everyday operations and in terms of the close attention and vociferous debates they attracted. In most instances the internal and external borders of the EU hardened and with increasing frequency the cohesion of the transnational union seemed on the verge of fracturing. Indeed very real fissures opened up with secessionist moves and referendums. Through each step in this juncture of upheavals the significance of race has been reiterated in tangential ways and sometimes with unabashed straightforwardness. This volume explores this juncture around 2015 and the constructions of race and of crisis therein for specific contexts and from a range of disciplinary perspectives. The introduction gives an overview of the juncture focusing on the rise of Eurosceptic nationalist political parties and their electoral success. Subsequent chapters are addressed to the management and representation of immigrants crossing the Mediterranean border regimes in the Czech Republic, the narratives that converged on Brexit, riots in England, antagonistic popular movements in Sweden, racialization in crisis management in Italy, perceptions of migrants in Greece and how race may be structured in and challenged through classroom pedagogy. This book was originally published as a special issue of *Ethnic and Racial Studies*.

**Women in Policing around the World** Venessa Garcia, 2021-03-24 *Women in Policing around the World* is a historical, legal, political and social examination of women in policing. The book opens with a comparison of cultural definitions of gender and how this affects women's work in general and policing specifically. The book then takes the reader through women in policing in the Eastern and Western Hemispheres, featuring several countries within the major regions of the world. Major commonalities and differences are identified in the areas of recruitment, training, deployment, promotion and violence against women. Among the key features of this book is a balanced coverage of historical and timely events that led to the current status of women police in their respective countries. The book identifies the commonalities that women police experience throughout the world, relying on the most current research. The book also dedicates coverage of policing violence against women in society as well as within the police organization itself. The author includes tables to allow for national comparisons throughout the book as well as current and historical photos. This book is intended for researchers and students of police culture and women in policing. It does not rely heavily on one country or region, thus allowing for an enlightening international comparison.
