Dividends

- Dividends received by individuals from South African companies are generally exempt from income tax, but dividends tax, at a rate of 20%, is withheld by the entities paying the dividends to the individuals. Dividends received by South African resident individuals from REITs (listed and regulated property owning companies) are subject to income tax, and non-residents in receipt of these dividends are only subject to dividends tax.

Foreign Dividends

- Most foreign dividends received by individuals from foreign companies (withholding of less than 20% in the foreign company) are taxable at a maximum effective rate of 20%. No deductions are allowed for expenditure to produce foreign dividends.

Interest exemptions

- Interest from a South African source, earned by any natural person under 65 years of age, up to R215 000 per annum, and persons 65 and older, up to R24 500 per annum, is exempt from income tax.
- Interest earned by non-residents, who are physically absent from South Africa for at least 362 days during the 12 month period, before the interest accrues and the interest bearing debt is not effectively connected to a fixed place of business in South Africa, is exempt from income tax.

Deductions

Retirement fund contributions

- Amounts contributed to pension, provident and retirement annuity funds during a year of assessment are deductible by members of those funds. Amounts contributed by employers and taxed as fringe benefits are treated as contributions by the individual employees. The deduction is limited to 27.5% of the greater of the amount of remuneration for IRPF purposes or taxable income (both excluding retirement fund lump-sums and severance benefits). The deduction is further limited to the lower of R200 000 or 27.5% of taxable income before the inclusion of a taxable capital gain. Any contributions exceeding the limitations are carried forward to the immediately following year of assessment and are deemed to be contributed in that following year. The amounts carried forward are reduced by contributions set off against retirement fund lump-sums and retirement annuities.

Medical and disability expenses

In determining tax payable, individuals are allowed to deduct:

- Monthly contributions to medical schemes (a tax rebate referred to as a medical scheme flow tax credit) by the individual who paid the contributions up to R2437 per month of the first two persons covered by those medical schemes, and R234 for each additional dependent; and
- In the case of:
 - An individual who is 65 years and older, or if an individual, his or her spouse, or his or her child is a person with a disability, 33.3% of the sum of qualifying medical expenses paid and borne by the individual, and an amount by which medical scheme contributions paid by the individual exceed three times the medical scheme flow tax credits for the tax year; or
 - Any other individual, 27% of an amount equal to the sum of the qualifying medical expenses paid and borne by the individual, and an amount by which medical scheme contributions paid by the individual exceed four times the medical scheme flow tax credits for the tax year, limited to the amount which exceeds 27.5% of taxable income (including retirement fund lump-sums and severance benefits).

Donations

- Deductions in respect of donations to certain public benefit organisations are limited to 10% of taxable income (including retirement fund lump-sums and severance benefits). The amount of donations exceeding 10% of the taxable income is treated as a donation to qualifying public benefit organisations in the following tax year.

Allowances

Subsistence allowances and advances

Where the recipient is obliged to spend at least one night away from his or her usual place of residence on business, and the accommodation to which that allowance or advance relates is

in the Republic of South Africa, and the allowance or advance is granted to pay for meals and incidental costs or incidental costs only, an amount, published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Determination of the daily amount in respect of meals and incidental costs, is deemed to have been expended per day.

Where the accommodation to which that allowance or advance relates is outside the Republic of South Africa, a specific amount per country is deemed to have been expended. Details of these amounts are published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Determination of the daily amount in respect of meals and incidental costs.

Where the recipient is by reason of the duties of his or her office or employment obliged to spend a part of a day away from his or her usual place of work or employment, a reimbursement or advance for expenditure actually incurred by the recipient is exempt if the recipient is allowed by his or her principal to incur expenditure on meals and other incidental costs for that part of a day and the amount of the expenditure does not exceed an amount published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Determination of the daily amount in respect of meals and incidental costs.

Travelling allowance

Rates per kilometre, which may be used in determining the allowable deduction for business travel against an allowance or advance where actual costs are not claimed, are determined using the table published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Filing of rate per kilometre in respect of motor vehicles.

Notes:

- 30% of the travelling allowance must be included in the employee's remuneration for the purposes of calculating PAYE. The percentage is reduced to 20% if the employer is satisfied that at least 80% of the use of the motor vehicle for the tax year will be for business purposes.
- No fuel cost may be claimed if the employee has not borne the full cost of fuel used in the vehicle, and no maintenance cost may be claimed if the employee has not borne the full cost of maintaining the vehicle (e.g. if the vehicle is covered by a maintenance plan).
- The fixed cost must be reduced on a pro-rata basis if the vehicle is used for business purposes for less than a full year.
- The actual distance travelled during a tax year, and the distance travelled for business purposes substantiated by a log book, are used to determine the costs which may be claimed against a travelling allowance.

Alternatively:

Where an allowance or advance is based on the actual distance travelled by the employee for business purposes, no tax is payable on an allowance paid by an employer to an employee, up to the rate published on the SARS website www.sars.gov.za, under Legal Counsel / Secondary Legislation / Income Tax Notices / Filing of rate per kilometre in respect of motor vehicles, regardless of the value of the vehicle.

However, this alternative is not available if other compensation in the form of an allowance or reimbursement (other than for parking or toll fees) is received from the employer in respect of the vehicle.

Modernizing VATs in Africa Sijbren Cnossen, 2019-07-16 Most African countries are in dire need of more tax revenue. In 28 out of 45 countries, with a value added tax (VAT) total tax revenue as a percentage of GDP is around 15% or less, falling short of what is necessary to finance basic human and economic development. Far from being revenue raising instruments, current African VATs are riddled with exemptions, exclusions, and zero rates on domestic goods and services that depress revenue. They are highly distortionary and greatly complicate the administration of VAT. Modernizing VATs in Africa enables policymakers, professionals, and students to analyse African tax systems to ascertain how they can be modernized. It explains the case for VAT base broadening over rate increasing, arguing that exemptions and zero rates mainly accrue benefits for higher income groups. Even more persuasively, it demonstrates that the net result of fiscal systems can be equalizing if the revenue of broad-based VATs is used to finance in-kind transfers such as healthcare and education. VAT modernization should be used to enable governments to finance development. Modernizing VATs in Africa puts a compelling case forward for how and why this can be achieved.

These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
