Sas Hongkong Express:

SAS Hong Kong Express Gérard de Villiers, 2012-05-23 Malko regarda autour de lui et aperçut aussitôt le long d'une rampe l'arrêter deux jeunes Chinois. L'un tenait un fil au bout prolongé d'une chaîne elle-même se terminant par une longue pointe aiguë. L'autre se préparait à lui lancer une toile cinq branches avec un trou au milieu. L'arme des Triades Terribles. Qui vingt mètres vous tuait silencieusement. Comme il était sorti parmi les derniers, il n'y avait pratiquement plus personne avec lui. Un des deux Chinois rejeta le bras en arrière et se détendant comme pour lancer un javelot, projeta une seconde toile qui tournoya à une vitesse diabolique droit vers Malko.

Lockhart, 1992 **Mastering the Travel Intermediaries** Ben Vinod, 2024-06-25 This book chronicles the role of travel intermediaries, global distribution systems (GDS), travel management companies (TMC) and online travel agencies (OTA) in the distribution of travel products. The book covers the historical development of these intermediaries and explores their current state and future prospects. Almost six decades after the introduction of computerized reservations systems and four decades after the introduction of Global Distribution Systems that allowed travel agents to make automated airline bookings, the distribution of air products is amid a major transition. A fundamental change is pricing power, which shifts from the GDSs to the airlines for the indirect channel. These changes are driven by advancements in technology, market economics and airline cost controls, leading to the emergence of new revenue models that will permanently alter the landscape of air distribution. As a result, travel intermediaries are experiencing the effects of these turbulent times and must adopt innovative approaches and initiatives to adapt and transform their business models rather than maintaining the status quo. In addition to the ongoing transformation over the next decade, the advancements in emerging technologies like blockchain and decentralized digital identity will further revolutionize the distribution landscape across all sectors of the travel industry.
