Satelite Television Guide

Peter Dunnett

Satellite Television Guide:

TV Guide Stephen F. Hofer, 2006 This book looks at the origins and growth of television through the pages of TV Guide and covers the complete run of this American icon from the first guides in 1953 to the last issue in guide format on October 9 2005 It includes full color reproductions of every cover ever printed and is both a collector's guide with pricing included and a retrospective view of the medium

TV Guide: TV on DVD 2006 TV Guide, 2005-10 From the foremost authority on TV viewing comes a complete guide to television shows on DVD

TV Guide, 2007

An Earthling's Guide to Satellite TV Jay Conrad Levinson, 1985

Federal Register, 2003-03

Satellite Broadcasting Ralph Negrine, 2013-06-19 Originally published in 1988 this book provides a thorough examination of the possibilities and key issues in satellite technology which at the time already seemed likely to change the face of broadcasting both within nations and internationally It begins with a guide to the technical development of different systems of satellites and signal reception and an outline of the international political and regulatory issues involved It then examines the situation in various industrialised countries by analysing launching plans funding the interaction between satellite cable and VCRs and the effect on existing broadcasting systems Concerned throughout with a wide range of cultural considerations and the potential impacts of the new media this is a useful reflection on the time

The World Television Industry Peter Dunnett, 2010-12-31 First published in 1990 The World Television Industry uses economic analysis to examine recent changes in the television industry It uses the theory of public good and a model of industrial organization to identify the major forces determining the nature of the television product in the late twentieth century The forces of supply and demand for an unusual product often requiring a double sale to a consumer and to an advertiser are examined as are alternative methods of financing The all pervading role of government is discussed at length

Commercial Culture Leo Bogart, 2017-09-29 American mass media are the world's most diverse rich and free Their dazzling resources variety and influence arouse envy in other countries Their failures are commonly excused on the grounds that they are creatures of the market that they give people what they want Commercial Culture focuses not on the glories of the media but on what is wrong with them and why and how they may be made better This powerful critique of American mass communication highlights four trends that sound an urgent call for reform the blurring of distinctions among traditional media and between individual and mass communication the increasing concentration of media control in a disturbingly small number of powerful organizations the shift from advertisers to consumers as the source of media revenues and the growing confusion of information and entertainment of the real and the imaginary The future direction of the media Leo Bogart contends should not be left to market forces alone He shows how the public's appetite for media differs from other demands the market is left to satisfy because of how profoundly the media shape the public's character and values Bogart concludes that a world of new communications technology requires a coherent national media policy respectful of the American tradition of free expression and subject to vigorous public scrutiny and debate Commercial Culture is a comprehensive analysis of the media as they evolve in a technological age It will appeal to general readers interested in mass communications as well as professionals and scholars studying American mass media

Television Alexander B. Magoun, 2007-06-30 For better or worse television has been the dominant medium of communication for 50 years Almost all American households have a television set many have more than one Transmitting images and sounds electronically is a relatively recent invention one that required passionate inventors determined businessmen government regulators and willing consumers This volume in the Greenwood Technographies series covers the entire history of television from 19th century European conceptions of transmitting moving images electrically to the death of TV as a discrete system in a digital age Magoun also discusses the changing face of television in the displays that people watch around the globe Television The Life Story of a Technology appeals to students and lay readers alike in highlighting key events and people the American engineers and entrepreneurs such as Vladimir Zworykin and David Sarnoff who ignited the television industry the bloom of programming choices in tandem with the Baby Boom generation the development of cable and satellite TV the Asians who innovated American inventions in videorecording and flat panel displays the use of TV in wartime and the new worlds of digital and high definition television Based on the latest research this crisply written
