Note: Any work not explicitly included in this *Project Scope Statement* is implicitly excluded from the project.

- Create links to referenced documents (e.g., [Link_To_...](#)) by using *Insert* → *Hyperlink* on your toolbar.
- Note that all documents that are linked to the Scope Statement become part of the Project Scope and require the same degree of management control. Such documents may be maintained in a separate Scope directory along with the Scope Statement.

<The Scope Statement must account for all of the work of the project. This means that all deliverables and all management responsibilities must be understood and documented. If any work is missing, important activities may be absent from your schedule and your budget may be insufficient to cover all of the cost. As you fill out each section of this document, consider every source of work. The guiding principle is:

Everything required for project success is in scope for the project.

If you discover anything necessary for project success that is not currently included in your project, do whatever is needed to get it included (e.g. negotiate with your Sponsor). If your project depends on deliverables from an external source, make the dependency known and manage it carefully.

Be certain to indicate all of the documents that support this Scope Statement (e.g. WBS). Do not baseline Project Scope until scope is stable. As changes are made in the project, be certain to update the Scope Statement and note the date and source of all changes.

Note: In any instance where there is a discrepancy between the *Project Charter* and the *Project Scope Statement*, the Scope Statement is considered authoritative.
