**Sales unit:** - It is a unit which we sell the goods to customer.

If base unit and sales unit is different than system will ask for conversion. (if you want to see go to additional data → unit of measure → you can see the conversion).

**Sales unit not vary:** - This field controls whether to change the sales unit or not in sales document. If we check this then system will not allow changing the sales unit in sales document.

**X- Distribution chain status:** - This field will be used to block the material for sales across all distribution channels.

**D-Chain specific Status:** - Thus field will be used, if we want the block the material for sales in a particular distribution channel.

**Delivery Plant:** - If we maintain plant here then it will be determined into sales document line item.

The Criteria for determining plant into sales document is: CMIR, Customer Master, and Material Master.
