Lovrich, 2020-08-05 Hu and Lovrich introduce the electronic community oriented policing E COP concept to explore how social media can impact police strategies on improving and maintaining police public relation Using empirical evidence and theoretical foundations this book demonstrates the importance of this timely refinement to traditional community oriented policing strategies as we move further into the twentieth century E COP represents a systematic approach to policing that applies knowledge derived from theories of individual behavior social behavior and mass communication dynamics to contemporary policing practice This book would be of interest to policing researchers scholars and students as well as police practitioners wishing to improve their use of social media resources to connect to the public they serve in the digital age *Higher Education and Police* Colin Rogers, Bernhard Frevel, 2018-02-14 This edited collection is concerned with the ideas challenges demands and framework of conditions behind police education from an international perspective Whilst not directly concerned with a classical comparison of education concepts from different countries the broad range of international contributors consider issues such as professionalization programmes how higher education programmes influence police organizations as well how higher education influences police practice in a global context Examining a wide array of countries from Germany to China and Brazil to show the flawed nature of an education system based purely upon an approach concerned with police officer numbers the editors of this book argue for the need for greater scientific education among police around the world to meet contemporary developments A timely and well informed study this book meets a crucial gap in the literature and will serve as an important contribution to existing work on policing crime prevention and theoretical criminology Domestic Abuse, Victims and the Law Mandy Burton, 2022-08-05 The gap between what the law and legal processes deliver for victims of domestic abuse and what they actually need has in some instances arguably widened This book provides the reader with a thorough understanding of the remedies available to victims in the civil family and criminal law It contends that expectations of the legal remedies have increased as the number and scope of remedies has proliferated It further examines how legal responses to domestic abuse have evolved over the past decade and explores how the victim s rights narrative and associated litigation which has become prevalent in legal discourse and criminal justice reforms has shifted expectations and impacted domestic abuse policy and law The book presents a valuable addition to the literature in drawing on a discourse familiar to those with an interest in human rights demonstrating its impact on a substantive area of law of great significance to both family and criminal lawyers and anyone with an interest in domestic abuse and legal responses **Police Services** Paresh Wankhade, David Weir, 2015-06-11 This volume provides fresh insights and management understanding of the changing role of policing against the backdrop of massive cuts in public

expenditure experienced and the changing landscape of policing The challenges of funding training online crimes and cultural transformation are now felt globally The need to learn and adapt from suitable models of police service delivery have never been greater The book offers critical insights into the theory and practice of strategic and operational management of police services and the related professional and policy aspects One of the highlight of this volume is to bring together scholarship using experts academics practitioners and professionals in the field to each of the chosen topics The chapters are based in the practical experiences of the authors and are written in a way that is accessible and suitable for a range of audiences We are confident that this book will cater to a wider audience to inform policy and practice both in the UK and internationally Sir Peter Fahy QPM Chief Constable Greater Manchester Police Policing across the world is facing an increasing complexity of demand and public expectation creating new challenges for leadership and management The contributors to this work are among the leading thinkers in policing and present important new insights into both the past and the way forward It will be welcomed by all those convinced that radical new approaches are required across the public services Bill Skelly Deputy Chief Constable Devon and Cornwall Police UK At times it feels that the focus on leadership in the police service is all about what went wrong the negative influences of a tightly knit culture and the almost inevitable rise of the technocrat It is refreshing to read a book that seeks new insights into the positive influences of police leadership and offers the prospect of a more emotionally aware and spiritually rich approach as to how those insights may be practically employed for the benefit of all in the police family and the communities we serve

Reframing Police Education and Freedom in America Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of
