Dear Parents and Staff Members:

As required by the New York State Department of Health (NYSDOH), we conduct lead testing every three years to ensure the safety of our community's water supply. This is in addition to our standard monthly water testing. This testing period marks the first time we have used the updated guideline of 5 parts per billion (0.005 mg/L) for lead. Previously, the limit was 15 parts per billion.

While most of the testing results show acceptable levels of lead, a small number of sinks did not meet the new 5 parts per billion guideline. We are taking immediate action to remediate these locations. Please refer to the action plan on the following page for details on the specific steps being taken.

Please be assured that health and wellness is very important to us and that we will take all steps necessary to ensure that the water in our buildings is safe to drink.

Sincerely,

Javier Perez
Superintendent of Schools

Ethan Goslin
Director of Facilities
