Sars 2015 Provisional Tax Guide:

People's Republic of China—Macao Special Administrative Region International Monetary Fund. Asia and Pacific Dept, 2014-07-24 KEY MESSAGES Setting Discussions took place for the first time since the handover of Macao SAR from Portugal to China in 1999 Prudent macroeconomic management has underpinned rapid development in the territory which is now the world's largest gaming center As a small open and tourism dependent economy Macao SAR is currently also benefiting from loose global monetary conditions and a Mainland related boom Outlook and risks Growth should stay strong over the next few years at 8-10 percent buoyed by gaming exports and investment with inflation remaining around 5-5.1-2 percent However the economy is vulnerable to external shocks in particular a slowdown in tourism due to shocks in the Mainland or Hong Kong SAR or other setbacks to the global recovery The buoyant property market could also correct if demand fundamentals shift or interest rates rise abruptly with the withdrawal of unconventional monetary policy abroad Macroeconomic policies The policy stance is appropriate with scope for further tightening of macroprudential policies should property prices continue to rise sharply If downside risks materialize targeted fiscal stimulus should be used to buttress growth In the event of a severe property downturn some countervailing measures could be cautiously unwound The currency board is the best arrangement for Macao SAR Financial stability Important progress has been made in strengthening financial stability in line with the 2011 FSAP recommendations Prudential measures should focus on managing potential credit and liquidity risks from a gaming slowdown and the property sector as well as spillovers from shocks in the Mainland and Hong Kong SAR Longer term challenges Looking further ahead Macao SAR's public finances face a moderation in gaming revenues juxtaposed against spending needs from population aging A sovereign wealth fund to manage part of the territory's fiscal reserves and medium term budgeting could therefore be useful As the gaming sector matures economic diversification toward other services will be key for stable growth

International Monetary Fund. African Dept.,2015-01-14 EXECUTIVE SUMMARY Article IV issues The government is committed to implementing the Plan S n gal Emergent PSE which contains valid diagnostics and policies to boost growth and accelerate poverty reduction GDP growth is projected to rise from less than 4 percent in recent years to 4 5 percent in 2014 Inflation remains low Growth can potentially reach 7 percent by 2019 if PSE related reforms are consistently and rapidly implemented The authorities believe this growth rate will be achieved two years earlier The impact of Ebola on growth will be limited in 2014 but can become substantial in 2015 should the epidemic spread in the region Fiscal stance The fiscal outlook has improved owing to stronger revenue performance and expenditure control and the overall deficit is expected to fall to about 5 percent of GDP in 2014 The 2015 budget targets a further reduction in the deficit to 4 7 percent of GDP less ambitious than the 4 0 percent of GDP recommended by staff However the authorities expect to limit the deficit close to the level recommended by staff by holding back appropriations for new public investment projects until feasibility studies are ready Staff and authorities agreed that Ebola related shocks could add 0 3 percent of GDP to the deficit in 2015 The authorities remain committed to bringing the fiscal deficit in line with the WAEMU target of 3 percent of GDP in the medium term Structural reforms The PSE offers an achievable development strategy including the right mix of private investment to be crowded in by public investment in both human capital and infrastructure However unlocking private investment including FDI requires speeding up reforms to the business climate and improving public sector governance Frontloading public investment without implementing the necessary structural reforms may jeopardize fiscal targets and debt sustainability while failing to raise growth from its sub par trend Program implementation Performance under the PSI supported program has been satisfactory with end June 2014 program targets met except for a minor breach of the non concessional borrowing ceiling due to weak debt management This borrowing does not materially affect debt sustainability and debt management weaknesses are being addressed Staff recommends completion of the eighth PSI review and proposes a waiver of nonobservance of the assessment criterion on non concessional borrowing International Management:
