*Political Philosophy 1* Luc Ferry, 1990-03-23 In recent years an increasing number of thinkers have grown suspicious of the Enlightenment ideals of progress reason and freedom These critics many inspired by Martin Heidegger have attacked modern philosophy's attempt to ground a vision of the world upon the liberty of the human subject Pointing to the rise of

totalitarian regimes in this century they argue that the Enlightenment has promoted the enslavement of human beings rather than their freedom In this first of four volumes that aim to revitalize the fundamental values of modern political thought one of the leading figures in the contemporary revival of liberalism in France responds to these critics and offers a philosophically cogent defense of a humanistic modernity Luc Ferry reexamines the philosophical basis of the contemporary retreat from the Enlightenment and then suggests his own alternative which defends the ideals of modernity while giving due consideration to the objections of the critics

Confidential to America David Gudelunas,2017-09-08 In modern day America newspaper advice columns have become public forums for the discussion of human sexuality Although questions posed to newspaper advice columnists ranges from matters of etiquette to intimacy as they have for decades increasingly most of the limited space in these newspaper features address issues that fall under a broader heading of sexuality Questions about marital fidelity dating and relationships sexual practices gender roles and sexual taboos have all become hot button topics within the morally conservative mainstream press In Confidential to America David Gudelunas shows how since the 1950s advice columns have been one of the few consistent mainstream and widely available public forums for the discussion of topics severely restricted in other places Newspaper advice columns serve as sites of discussion about sexuality within a larger culture that is severely divided on questions of how when and to what extent one may formally speak about sexuality Even now at the turn of the twenty first century high schools remain hesitant to devote more than a semester or two to formal discussions of sexuality When they do under current governmental policy and pressure these discussions are often restricted to abstinence only programs or what might be described as non discussions of sexuality Community based sexual education programs are similarly restricted in their reach funding and more often than not effectiveness In America in the twenty first century talking about sex in educational contexts is perceived to be almost as risky as having sex Gudelunas demonstrates that while formal discussions of sexuality are strictly regulated and often thwarted the informal curriculum of sexuality particularly in the American mass media has become ever more vocal on the topic of sex From depictions conveyed through fictional and reality based popular culture to discussions taking place in the cafeteria if not the classroom and in Internet chat rooms sexuality dominates our collective conscience
