## **World Migration Report 2008:**

*India Migration Report 2010* S Irudaya Rajan, 2020-11-29 The first India Migration Report proposed by the Research Unit on International Migration set up by the Ministry of Overseas Indian Affairs Government of India at the Centre for Development Studies Thiruvananthapuram Kerala is organised into articles on four broad themes migration remittances gender and policy issues The opening article reviews the historical trends in international migration followed by two articles that deal with workers remittances and one which discusses the maturity that Kerala emigration reached in this state Other articles focus on cross border migration in developing countries and as yet less documented gender issues including the migration of nurses and housemaids Though large numbers of unskilled and semi skilled labourers migrate to the Gulf region the prevailing labour laws and the violation of human rights in the GCC countries are an unexplored area this is something this volume also addresses The cost of migration and the role played by unscrupulous recruitments agents are serious concerns for both the government and international agencies working in migration The Emigration Act 1983 provides guidelines for organising recruitment business in India Do we have to revamp the recruitment system These are some of the themes this book discusses

*World Development Report 2013* World Bank, 2012-10-15 Jobs provide higher earnings and better benefits as countries grow but they are also a driver of development Poverty falls as people work their way out of hardship and as jobs empowering women lead to greater investments in children Efficiency increases as workers get better at what they do as more productive jobs appear and less productive ones disappear Societies flourish as jobs bring together people from different ethnic and social backgrounds and provide alternatives to conflict Jobs are thus more than a byproduct of economic growth They are transformational they are what we earn what we do and even who we are High unemployment and unmet job expectations among youth are the most immediate concerns But in many developing countries where farming and self employment are prevalent and safety nets are modest are best unemployment rates can be low In these countries growth is seldom jobless Most of their poor work long hours but simply cannot make ends meet And the violation of basic rights is not uncommon Therefore the number of jobs is not all that matters jobs with high development payoffs are needed Confronted with these challenges policy makers ask difficult questions Should countries build their development strategies around growth or should they focus on jobs Can entrepreneurship be fostered especially among the many microenterprises in developing countries or are entrepreneurs born Are greater investments in education and training a prerequisite for employability or can skills be built through jobs In times of major crises and structural shifts should jobs not just workers be protected And is there a risk that policies supporting job creation in one country will come at the expense of jobs in other countries The World Development Report 2013 Jobs offers answers to these and other difficult questions by looking at jobs as drivers of development not as derived labor demand and by considering all types of jobs not just formal wage employment The Report provides a framework that cuts across sectors and shows that the best policy responses vary across countries

depending on their levels of development endowments demography and institutions Policy fundamentals matter in all cases as they enable a vibrant private sector the source of most jobs in the world Labor policies can help as well even if they are less critical than is often assumed Development policies from making smallholder farming viable to fostering functional cities to engaging in global markets hold the key to success *India Migration Report 2011* S. Irudaya Rajan,2012-06-25 This book examines identities violence and conflict in the context of internal migration within India As India prepares to count its citizens for Census 2011 with a proposal for a National Population Register and a unique identity card for every Indian citizen the debate on internal and cross border migration is significant The second volume in this annual series India Migration Report 2011 focuses on the implications of internal migration livelihood strategies recruitment processes and development and policy concerns in critically reviewing the existing institutional framework The essays provide a district level analysis of the various facets of migration with a focus on employment networks gender dimensions and migration development linkages with concrete policy suggestions to improve living and working conditions of vulnerable migrant workers who are a lifeline to the growth of Indian economy This will be an invaluable resource for those in the fields of demography economics sociology public policy and administration World Migration Report ,2010 *The International Organization for Migration* Martin Geiger,Antoine Pécoud,2020-02-18 In 2016 the International Organization for Migration IOM became part of the United Nations With 173 member states and more than 400 field offices the IOM the new UN migration agency plays a key role in migration governance The contributors in this volume provide an in depth and comprehensive insight into the IOM its transformation current structure and projects as well as its capacity self understanding and political agenda **Handbook of Migration and Globalisation** Anna Triandafyllidou,2018-02-23 This Handbook explores the multifaceted linkages between two of the most important socioeconomic phenomena of our time globalisation and migration Both are on the rise increasing in size and scope worldwide and this Handbook offers the necessary background knowledge and tools to understand how population flows shape and are shaped by economic and cultural globalisation World of Walls Said Saddiki,2017-10-09 We re going to build a wall Borders have been drawn since the beginning of time but in recent years artificial barriers have become increasingly significant to the political conversation across the world Donald Trump was elected President of the United States while promising to build a wall on the Mexico border and in Europe the international movements of migrants and refugees have sparked fierce discussion about whether and how countries should restrict access to their territory by erecting physical barriers Virtual walls are also built and crushed at increasing speed In the post 9 11 era there is a greater danger from so called transnational non state actors and computer hacking and cyberterrorism threaten to overwhelm our technological barriers In this timely and original book Said Saddiki scrutinises the physical and virtual walls located in four continents including Israel India the southern EU border Morocco and the proposed border wall between Mexico and the US Saddiki s detailed analysis explores the tensions between

the rise of globalisation which some have argued will lead to a borderless world and the end of the nation state and the rapid development in recent decades of border control systems Saddiki examines both regular and irregular cross border activities including the flow of people goods ideas drugs weapons capital and information and explores the disparities that are reflected by barriers to such activities He considers the consequences of the construction of physical and virtual walls including their impact on international relations and the rise of the multi billion dollar security market World of Walls The Structure Roles and Effectiveness of Separation Barriers is important reading for all those interested in the topics of immigration border security international relations and policy

**A Tight Embrace** Marco Zoppi,2020-12-16 This book provides various examples showing how Europe and Africa can be conceptualized and researched as a single macro area connected by interrelated global and multilevel dynamics What types of relations characterize Europe and Africa today The nature of the connections is neither clear nor unilinear rather they appear dialectical multifaceted and pointing in different directions This edited book explores narratives contemporary dynamics and historical legacies demonstrating the long standing relations between the continents suggesting that the entangled Euro African relations in multiple fields should be intended as a permanent condition for any analyses The authors provide various evidence of the fact that the two continents are deeply part of shared but uneven structures of global wealth and power Within those structures certain dynamics are constantly produced and reproduced yet new opportunities to subvert existing relations have also emerged recently Hence instead of proposing conceptual premises holding Africa and Europe as separate regions that get in touch at specific moments in time be it colonialism the Cold War globalization migration this book critically considers that each of the matters explored is anything but an episode in a more complex intertwined story that ultimately represents the explanatory framework for present Euro African relations

Cities of the Global South Reader Faranak Miraftab,Neema Kudva,2014-10-10 The Cities of the Global South Reader adopts a fresh and critical approach to the field of urbanization in the developing world The Reader incorporates both early and emerging debates about the diverse trajectories of urbanization processes in the context of the restructured global alignments in the last three decades Emphasizing the historical legacies of colonialism the Reader recognizes the entanglement of conditions and concepts often understood in binary relations first third worlds wealth poverty development underdevelopment and inclusion exclusion By asking whose city whose development the Reader rigorously highlights the fractures along lines of class race gender and other socially and spatially constructed hierarchies in global South cities The Reader's thematic structure where editorial introductions accompany selected texts examines the issues and concerns that urban dwellers planners and policy makers face in the contemporary world These include the urban economy housing basic services infrastructure the role of non state civil society based actors planned interventions and contestations the role of diaspora capital the looming problem of adapting to climate change and the increasing spectre of violence in a post 9 11 transnational world The Cities of the Global South Reader pulls together a

diverse set of readings from scholars across the world some of which have been written specially for the volume to provide an essential resource for a broad interdisciplinary readership at undergraduate and postgraduate levels in urban geography urban sociology and urban planning as well as disciplines related to international and development studies Editorial commentaries that introduce the central issues for each theme summarize the state of the field and outline an associated bibliography They will be of particular value for lecturers students and researchers making the Cities of the Global South Reader a key text for those interested in understanding contemporary urbanization processes

**Financing Higher Education in Africa** World Bank,2010-04-21 The training and development of human capital in Sub Saharan Africa SSA will help countries in the region diversify their economies carry out economic transformation and support sustainable growth Higher education plays a key role in training qualified individuals who will be able to implement new technologies and use innovative methods to establish cost efficient and effective enterprises and institutions However in order for SSA to reap the benefits of this investment in human capital higher education institutions must secure financing to provide quality training and sound professional prospects to their students Currently tertiary education development is unsustainable resources per student are declining and the quality of education is affected These issues are particularly pressing in times of financial global crisis when available resources for tertiary education tend to diminish The impact of the crisis that started in 2008 provides a clear illustration of the need to explore innovative ways to diversify and secure financing for higher education in SSA Financing Higher Education in Africa provides a comprehensive overview of higher education financing in SSA The book begins with an explanation of the fundamental problems faced by higher education institutions and students in SSA namely the combined pressure of a rapid growth in demand and a growing scarcity of public resources and it presents the dramatic consequences of these trends on quality The book then turns to analyzing and comparing the current funding policies in SSA countries and it provides recommendations for improvement Finally the book examines the alternatives to the status quo and the policy tools needed to both diversify resources and allocate them based on performance It will be of great interest to governments universities research institutions and international organizations throughout the region

**Environment, Climate Change and Migration in South Asia** Amit Ranjan,Rajesh Kharat,Pallavi Deka,2023-03-31 Climate change has been fueling migration and according to some policy reports there could more than one billion climate migrants refugees across the world by 2050 In South Asia disasters environmental degradation and climate change are increasing the number of migrants every year In South Asia like other parts of the world migrants and displaced people mainly move within their respective countries but some cross the porous border At most places the migrants and displaced people face hostile situation as they are not welcome by their local host population The chapters in the book highlight the challenges and inadequacies of governments and communities in protecting the environment as well as the disproportionate effect that climate change has on the poor and marginalized groups The book also discusses the gendered experiences of climate

related migrations and policy measures which need to be implemented to counter forced displacements and environment degradation along with the legal and institutional resources which could help mitigate climate change and protect climate refugees This book will be of interest to students and researchers of development studies ecology and environment migration sociology law and governance human ecology climate change and economics The Education System in Swaziland World Bank,2010-04-28 Policy makers recognize that developing capacity for knowledge and technology driven growth is necessary for Swaziland to integrate into the global economy and to be competitive in particular because Swaziland is not rich in exploitable natural resources The Education Training and Skills Development Sector ETSDS the educational sector of Swaziland s long term development and reform program covers all levels of education from early childhood to post secondary education This paper evaluates the adequacy of the ETSDS in light of the enhanced educational goal for the country Acknowledging that financing reforms will be a challenge this paper makes recommendations to enhance the program s effectiveness such as expanding access strengthening delivery modes and minimizing financial barriers to education and training

Ullah,2014-05-15 Ahsan Ullah provides an insightful analysis of migration and displacement in the Middle East and North Africa He examines the intricate relationship of these phenomena with human rights safety concerns and issues of identity crisis and identity formation

**Territoriality and Migration in the E.U. Neighbourhood** Margaret Walton-Roberts,Jenna Hennebry,2013-08-16 This volume brings together an interdisciplinary group of scholars around an important question how has migration changed in Europe as the European Union has enlarged and what are the consequences for countries and for migrants themselves inside and outside of these redrawn jurisdictional and territorial borders By addressing this question the book contributes to three current debates with respect to EU migration management 1 that recent developments in EU migration management represent a profound spatial and organizational reconfiguration of the regional governance of migration 2 the trend towards the externalization or subcontracting of migration control and 3 how the implications of Europe s changing immigration policy are increasingly felt across the European neighborhood and beyond Based on new empirical research the authors in this collection explore these three processes and their consequences for both member and non member EU states for migrants themselves and for migration systems in the region The collection indicates that despite the rhetoric of social and spatial integration across the

EU region as one wall has come down new walls have gone up as novel migration and security policy frameworks have been erected making European immigration more complex and potentially more influential beyond the EU zone than ever

**Oxford Textbook of Global Public Health** Roger Detels, Martin Gulliford, Quarraisha Abdool Karim, Chorh Chuan Tan, 2017 Sixth edition of the hugely successful internationally recognised textbook on global public health and epidemiology comprehensively covering the scope methods and practice of the discipline *Environmental Governance and Sustainability* Paul Martin, Zhiping Li, Tianbao Qin, 2012-01-01 A unique publication that examines emerging and cutting edge environmental issues from no less than seven countries including Africa and China These issues are examined mainly from a trans disciplinary environmental governance perspective that includes law ecology economics policy and management The contributors to the book include some exceptional young scholars They together with other contributors who are distinguished environmental legal experts have advanced the scholarship of environmental governance Koh Kheng Lian National University of Singapore This timely volume provides fascinating insights into emerging developments in the field of legal governance of the environment at a time when environmental governance is increasingly concerned with far more than legal doctrine The expert contributors are concerned with the totality of arrangements through which power and resources are deployed to protect and restore natural resources and how the costs and benefits of this are allocated They explore key issues such as how the community exercises its democratic rights how government responds to the needs of current and future generations and balances the interests of the powerful with the powerless the freedoms and responsibilities of commerce and the holders of property and the ways in which laws and policies are informed by science and other perspectives The various ways in which legal scholarship is pivotal to good governance are thus highlighted as is the extent of innovation being generated by current ecological economic and social challenges Clearly demonstrating the increasing breadth and depth of environmental law scholarship this thought provoking book will prove an invaluable reference tool for academics students and researchers focusing on environmental law and development **Women, War, and Violence**

Mariam M. Kurtz, Lester R. Kurtz, 2015-08-28 This set of original articles probes the breadth of vital issues surrounding the impact of war and violence on women globally and examines what is being done to mitigate their effects The story of men s roles in war and violence fills headlines and history books but the women s narrative too often goes unnoticed This two volume work brings women s voices to the fore highlighting new scholarship and journalism to offer a realistic understanding of this timely topic Including both historical context and contemporary issues the volumes explore types of violence affecting women and girls as victims of war and as combatants in and perpetrators of war Equally important it provides an in depth look at resistance movements and peacemaking efforts examining how these issues can and should be addressed The two volumes bring together a wide range of articles by experts from various fields and backgrounds to provide the first all inclusive overview of women war and violence Other works on the subject tend to be focused on Western nations offering a

narrow view of a global issue This compendium in contrast takes a truly international approach It provides general readers policymakers students and scholars with a compelling collection of insights from around the world exposing the varied experiences women have had and continue to have with violence and war

**Research Handbook on Global Climate Constitutionalism** Jordi Jaria-Manzano, Susana Borràs, 2019-12-27 Climate change is causing traditional political and legal concepts to be revisited The emergence of a global polity through physical economic and social interaction demands global responses which should be founded upon new principles and which cannot simply be modelled on traditional constitutionalism centred on the nation state This Research Handbook explores how to build this climate constitutionalism at a global level starting from the narrative of Anthropocene and its implications for law It provides a critical approach to global environmental constitutionalism analysing the problems of sustainability and global equity which are entwined with the causes and consequences of climate change The Handbook explores how to develop constitutional discourses and strategies to address these issues and thereby tackle the negative effects of climate change whilst also advancing a more sustainable equitable and responsible global society

**Borders, Fences and Walls** Elisabeth Vallet, 2016-04-08 Twenty years after the fall of the Berlin Wall the question remains Do good fences still make good neighbours Since the Great Wall of China the Antonine Wall built in Scotland to support Hadrian's Wall the Roman Limes or the Danevirke fence the wall has been a constant in the protection of defined entities claiming sovereignty East and West But is the wall more than an historical relic for the management of borders In recent years the wall has been given renewed vigour in North America particularly along the U S Mexico border and in Israel Palestine But the success of these new walls in the development of friendly and orderly relations between nations or indeed within nations remains unclear What role does the wall play in the development of security and insecurity Do walls contribute to a sense of insecurity as much as they assuage fears and create a sense of security for those behind the line Exactly what kind of security is associated with border walls This book explores the issue of how the return of the border fences and walls as a political tool may be symptomatic of a new era in border studies and international relations Taking a multidisciplinary approach this volume examines problems that include security issues the recurrence and or decline of the wall wall discourses legal approaches to the wall the wall industry and border technology as well as their symbolism role objectives and efficiency
