Stearns, Michael Adas, Stuart B. Schwartz, 2001 The primary goal of World Civilizations is to present a TRULY GLOBAL HISTORY one that both discusses the development of the world s leading civilizations and also emphasizes the major stages in the interactions among different peoples and societies World Civilizations examines all the world s civilizations including those in the Western tradition but also those civilizations sometimes neglected in world history texts for example the nomadic societies of Asia Latin America and the nations and states of the Pacific Rim World Civilizations balances this discussion of independent developments in all the world s major civilizations with comparative analysis of the results of international contact World Civilizations organizes its presentation of

global history into SIX COHERENT TIME PERIODS with each period defined by the new and parallel patterns that evolved among all or most civilizations during the particular era The six periods correspond to the six parts of the book Within each part the authors identify specific themes that characterize common experiences or common forces in individual societies as well as the new kinds and patterns of global contacts that emerged during the era Thus for example Part I of the book discusses the developmental stage of world history including the rise of agriculture and the development of civilization Part II examines the classical era in global history an era marked by the integration of large regions and diverse groups of people through overarching cultural and political systems Subsequent parts of the book continue the emphasis on geographic shifts and the intensification of contact among civilizations

Birthing Eternity Jane Elizabeth Cody, 2013-04 Are we living in what the Bible calls the Last Days It feels like it but how can you know for certain What if everything you have been taught about the End Times is wrong What if the doctrines of well meaning theologians who lived in a day before planes trains and automobiles before phones TVs and satellite communications are as helpful as the understanding of an elephant provided by the four proverbial blind men Based on their limited knowledge gleaned from what their hands have touched they proclaim an elephant is like a rope a snake a tree a fan With the clarity of sight we know none

of these accurately describes an elephant Birthing Eternity makes a compelling case to take off your theological blindfolds and examine the elephant standing before you By tracing the correlation between documented history and the biblical prophecy Birthing Eternity will give you answers that are both unexpected and profound Find out how God has fulfilled His Word in astounding detail and gain critical insight about current events that are on everyone's mind in this unsettled and challenging time Birthing Eternity makes the Last Days easy to understand It is proof that the message of End Times Scripture does not require top secret information prophetic visions or a degree in theology It is simply a matter of connecting the dots between what is plainly stated in Scripture and human events More than that you will find assurance that the unfolding of Last Days events isn't something to be feared but rather an exciting adventure No matter what there is hope for a bright future including eternity

Seven Myths of Military History John D. Hosler, Alfred J. Andrea, Andrew Holt, 2022-03-01 This brief provocative and accessible book offers snapshots of seven pernicious myths in military history that have been perpetrated on unsuspecting students readers moviegoers game players and politicians It promotes awareness of how myths are created by the spurious misuse and ignorance of history and how misleading ideas about a military problem as in asymmetric warfare can lead to misguided solutions Both scholarly and engaging this book is an ideal addition to military history and historical methodology courses In fact it could be fruitfully used in any course that teaches critical thinking skills including courses outside the discipline of history Military history has a broad appeal to students and there's something here for everyone From the so called Western Way of War to its sister myth technological determinism to the academic party game of once faddish Military Revolutions the book shows that while myths about history may be fun myth busting is the most fun of all Reina Pennington Norwich University

History Textbooks and the Wars in Asia Gi-Wook Shin, Daniel C. Sneider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy Still the region cannot escape from the burden of history This book examines the formation of historical memory in four Northeast Asian societies China Japan South Korea and Taiwan and the United States focusing on the period from the beginning of the Sino Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951 The contributors analyse the recent efforts of Korean Japanese and Chinese scholars to write a common history of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements In doing so they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided and often conflicting historical memories The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives Through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in the region This book will be essential reading for students and scholars of Asian history Asian education and international relations in East Asia
