

Short Answer Question 2 (continued)

Score 0

Response accomplishes none of the tasks set by the question.

Score NR

No response. Response is completely blank.

Scoring Guide

0–3 points

- ONE point for identifying one way that the data in the chart illustrate global economic differences between countries in the late twentieth century
- ONE point for identifying one similarity (other than GDP per capita) that might account for the low life expectancies of some of the world's countries, as displayed in the chart
- ONE point for explaining one way in which longer life expectancies in some of the world's countries, as displayed in the chart, have led to new political, economic, or social problems

Scoring Notes

Examples of responses to part (a) that would earn credit:

- The data show that the United States has a higher GDP than Swaziland.
- The chart shows that developed countries have higher life expectancies than underdeveloped countries.
- The chart shows that people in developed economies in the West and Asia live longer than people in underdeveloped countries because they have better access to modern medicine and vaccines.

Examples of responses to part (b) that would earn credit:

- Poor water and food quality contribute to the low life expectancies in some of the countries shown in the chart.
- Formerly colonized countries shown in the chart might find it difficult to improve sanitation infrastructure and medical care because of economic imperialism.
- The lack of access to quality medical care and vaccines is a reason for the low life expectancies in some of the countries shown in the chart, particularly with the emergence of epidemic diseases such as AIDS and malaria.

Burr,2025-09-24 This global and comparative history examines the evolution of human societies over many millennia illuminating patterns within societies today It shows how the original human groups bands of hunter gatherers grew over time into larger and more complex societies through three major transformations settlement and domestication the development of complexity and inequality and industrial globalization The book describes how each of these major changes in economy and political structure created new types of societies villages chiefdoms and other complex societies agrarian states and empires and today s global social system It therefore shows how different types of societies came to co exist and interact on Earth The book compares societies

along seven aspects their economies political systems cultural patterns inequalities family structures demographics and environmental patterns It shows that even societies that shared similar basic features still exhibited great variety The comparative framework presented here helps readers develop a conceptual vocabulary for understanding societies the larger social systems within which they exist and the major social changes that led to this continuing expansion *Encounters Old and New in World History* Alan Karras, Laura J. Mitchell, 2017-06-30 This collection of essays asserts the specific value of world history research and teaching showing how the field contributes to the larger historical profession and offering concrete suggestions to develop more interaction between the academy and the public The twelve contributors each with their own academic areas of interest are experienced scholars and classroom teachers Uniting them together in this volume is their professional relationship with Jerry H Bentley 1949 2012 This shared connection served as a catalyst to showcase Bentley's enduring legacy a commitment to investigating large scale questions with detailed empirical evidence that explains the human condition documenting both patterns of similarity and difference in ways that account for regional and temporal variations The volume continues Bentley's meticulous attention to world historical methods focus on scale cross cultural encounter comparison periodization critical geography and interdisciplinarity *Encounters Old and New in World History* responds to provocations that Jerry Bentley tendered in his scholarship and through his professional activities Contributors interrogate the institutional settings disciplinary proclivities methodological choices and diverse source bases of world history research and teaching Several essays address the ways in which present day concerns influence research on local and global scales Other essays pay particular attention to the production and circulation of knowledge across regional temporal and class boundaries as well as between the academy and the wider public Claiming the centrality of globally informed and focused approaches to historical inquiry researchers continue the conversations that Bentley carried on through his own scholarship teaching editing of the *Journal of World History* participating in public forums and contributing to public discussions about the place of history in understanding today's global integration The stakes involved in asking questions about the shared history of humankind continue to increase in the current era of intensified globalization It is incumbent upon scholars with the skills to work across linguistic geographic temporal and disciplinary boundaries to show the ways that cross cultural encounters happened historically and to point out how such interactions play out in the institutions classrooms and public debates where historical interpretations are created and shared *The New World History* Ross E. Dunn, Laura J. Mitchell, Kerry Ward, 2016-08-23 *The New World History* is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field The forty four articles in this book take stock of the history evolving literature and current trajectories of new world history These essays together with the editors introductions to thematic chapters encourage educators and students to reflect critically on the development of the field and to explore concepts approaches and insights valuable to their own work The selections are organized in ten chapters that survey the

Martell, Kaylene M. Stevens, 2021 Learn how to enact justice oriented pedagogy and foster students critical engagement in today s history classroom Over the past 2 decades various scholars have rightfully argued that we need to teach students to think like a historian or think like a democratic citizen In this book the authors advocate for cultivating activist thinking in the history classroom Teachers can use Teaching History for Justice to show students how activism was used in the past to seek justice how past social movements connect to the present and how democratic tools can be used to change society The first section examines the theoretical and research foundation for thinking like an activist and outlines three related pedagogical concepts social inquiry critical multiculturalism and transformative democratic citizenship The second section presents vignettes based on the authors studies of elementary middle and high school history teachers who engage in justice oriented teaching practices Book Features Outlines key components of justice oriented history pedagogy for the history and social studies K 12 classroom Advocates for students to develop thinking like an activist in their approach to studying the past Contains research based vignettes of four imagined teachers providing examples of what teaching history for justice can look like in practice Includes descriptions of typical units of study in the discipline of history and how they can be reimagined to help students learn about movements and social change **Historical Origins of International Criminal Law** Morten Bergsmo, CHEAH Wui Ling, YI Ping, 2014-12-12 The historical origins of international criminal law go beyond the key trials of Nuremberg and Tokyo but remain a topic that has not received comprehensive and systematic treatment This anthology aims to address this lacuna by examining trials proceedings legal instruments and publications that may be said to be the building blocks of contemporary international criminal law It aspires to generate new knowledge broaden the common hinterland to international criminal law and further consolidate this relatively young discipline of international law The anthology and research project also seek to question our fundamental assumptions of international criminal law by going beyond the geographical cultural and temporal limits set by the traditional narratives of its history and by questioning the roots of its substance process and institutions Ultimately we hope to raise awareness and generate further discussion about the historical and intellectual origins of international criminal law and its social function The contributions to the three volumes of this study bring together experts with different professional and disciplinary expertise from diverse continents and legal traditions Volume 1 comprises contributions by prominent international lawyers and researchers

Engaging the Past Elizabeth George, 2024-02-14 Engaging the Past Action and Interaction in the History Classroom provides practical steps toward using engaging strategies in the classroom to teach students to think historically These strategies include an approach developed by the author called The You Decide Lecture and innovative ways to use board games and role playing games in the history classroom The goal is not simply to add window dressing to fundamentally dull lessons but rather to re examine how teachers think about students as learners of history This book follows the growing trend within historical pedagogy to care less about content coverage and more about deep engagement student learning and the importance of historical thinking The students in our classrooms today are the history teachers of tomorrow and awakening them to the exciting complexities of the past is critical to keep the study of history thriving Interdisciplinarity in World History Ahmed Abushouk, Mahjoob Zweiri, 2016-06-22 This book represents selected papers of an international conference convened by the Department of Humanities at Qatar University Doha in March 2013 Its theme was Interdisciplinarity in History An Old Method in New World Context Twelve out of the fifty papers presented at the conference have been thoroughly reviewed revised and compiled in this volume Their contributions emphasize that interdisciplinary in history has become a key term for professional historians who reject the professional identity of history based on its claimed autonomy and the distinctiveness of its research methods and argue that this claim has seriously narrowed the intellectual horizons of the discipline in terms of both teaching and research The chapters also stress that historical research should not be confined to political events as it was by ancient historians but rather be open to other complex issues which require thorough investigation and collaboration between history and other disciplines In this sense interdisciplinarity in history is a process of answering questions solving problems or examining topics that are too broad or multifaceted to be tackled adequately by history as a discipline on its own Therefore history should not be regarded as a stationary subject as Robinson wrote but as a discipline that would transcend the limitations formerly imposed upon the study of the past and integrate with other social science disciplines to widen its methodological scope and investigate many issues that had previously ignored or marginalized **Cracking the AP World History Exam, 2017 Edition** Princeton Review, 2016-10-18 EVERYTHING YOU NEED TO SCORE A PERFECT 5 ON THE NEW 2017 EXAM Equip yourself to ace the NEW AP World History Exam with The Princeton Review s comprehensive study guide including thorough content reviews targeted strategies for every question type access to our AP Connect portal online and 2 full length practice tests with complete answer explanations This eBook edition has been optimized for on screen viewing with cross linked questions answers and explanations The AP European History course and exam have changed Created to align with the new exam content and written by the experts at The Princeton Review Cracking the AP World History Exam arms you to take on the test with Techniques That Actually Work Tried and true strategies to help you avoid traps and beat the test Tips for pacing yourself and guessing logically Essential
