Kaufman, Kristen P. Williams, 2024-10-02 Kaufman and Williams present critical issues in international relations through an intersectional approach that examines race gender class ethnicity and power to arrive at better explanations for such core IR issues as war and peace security human rights development and international political economy and the global environment Their approach builds on early calls amongst feminist IR theorists imploring Where are the women It is only fairly recently that students of IR have broadened the approach to the field to incorporate the dimensions of race ethnicity and class as well as gender Kaufman and Williams help guide readers exploring questions like How does gender matter for understanding war and peace How does race matter Where are the men What is intersectionality in IR How does an intersectional approach change or broaden our understanding of international relations International Relations, 5th Edition V.N. Western Muslims and Conflicts Abroad Juris Pupcenoks, 2015-12-07 This book explains why reactive conflict spillovers political violence in response to conflicts abroad occur in some migrant background communities in the West Based on survey data statistical datasets more than sixty interviews with Muslim community leaders and activists ethnographic research in London and Detroit and open source data this book develops a theoretical explanation for how both differences in government policies and features of migrant background communities interact to influence the nature of foreign policy focused activism in migrant communities Utilizing rigorous mixed methods case study analysis the author comparatively analyses the reactions of the Pakistani community in London and the Arab Muslim community in Detroit to the wars in Afghanistan and Iraq during the decade following 9 11 Both communities are politically mobilized and active However while London has experienced reactive conflict spillover Detroit has remained largely peaceful The key findings show that with regards to activism in response to foreign policy events Western Muslim communities primarily politically mobilize on the basis of their ethnic divisions Nevertheless one notable exception is the Arab Israeli conflict which is viewed through the Islamic lenses and the common Islamic identity is important in driving mobilization domestically in response to Islamophobia and counterterrorism policies and practices perceived to be discriminatory Certain organizational arrangements involving

minority community leaders law enforcement and government officials help to effectively contain excitable youth who may otherwise engage in deviant behavior Overall the following factors contribute to the creation of an environment where reactive conflict spillover is more likely to occur policies allowing immigration of violent radicals poor economic integration without extensive civil society inter group ties the presence of radical groups and connections with radical networks abroad

American Foreign Policy in a New Era Robert Jervis,2013-01-11 To say that the world changed drastically on 9 11 has become a truism and even a cliché But the incontestable fact is that a new era for both the world and US foreign policy began on that infamous day and the ramifications for international politics have been monumental In this book one of the leading thinkers in international relations Robert Jervis provides us with several snapshots of world politics over the past few years Jervis brings his acute analysis of international politics to bear on several recent developments that have transformed international politics and American foreign policy including the War on Terrorism the Bush Doctrine and its policies of preventive war and unilateral action and the promotion of democracy in the Middle East including the Iraq War and around the world Taken together Jervis argues these policies constitute a blueprint for American hegemony if not American empire All of these events and policies have taken place against a backdrop equally important but less frequently discussed the fact that most developed nations states that have been bitter rivals now constitute a security community within which war is unthinkable American Foreign Policy in a New Era is a must read for anyone interested in understanding the policies and events that have shaped and are shaping US foreign policy in a rapidly changing and still very dangerous world **Rooted**

Dimitrov, 2013-07-31 This volume brings together a distinguished group of scholars working to address the puzzling durability of communist autocracies in Eastern Europe and Asia which are the longest lasting type of non democratic regime to emerge after World War I The volume conceptualizes the communist universe as consisting of the ten regimes in Eastern Europe and Mongolia that eventually collapsed in 1989-91 and the five regimes that survived the fall of the Berlin Wall China Vietnam Laos North Korea and Cuba The essays offer a theoretical argument that emphasizes the importance of institutional adaptations as a foundation of communist resilience In particular the contributors focus on four adaptations of the economy of ideology of the mechanisms for inclusion of potential rivals and of the institutions of vertical and horizontal accountability The volume argues that when regimes are no longer able to implement adaptive change contingent leadership choices and contagion dynamics make collapse more likely
