

World War I Questions & Answers

What was the main cause of World War I?

World War I began after the assassination of Austrian archduke Franz Ferdinand by South Slav nationalist Gavrilo Princip on June 28, 1914.

What countries fought in World War I?

The war pitted the Central Powers (mainly Germany, Austria-Hungary, and Turkey) against the Allies (mainly France, Great Britain, Russia, Italy, Japan, and, from 1917, the United States).

How was trench warfare used in World War I?

The widespread use of machine guns and rapid-firing artillery pieces on the Western Front meant that any exposed soldier was vulnerable. Protection from enemy fire could only be achieved by digging into the earth. Assaults were carried out across "No Man's Land" between the opposing trenches.

Why was the Lusitania important?

The British ocean liner's demise contributed indirectly to the United States' entry into World War I. In 1915 it was sunk by a German U-boat, resulting in the death of 1,198 people, including 128 Americans. Despite outrage over the incident, the U.S. government continued to pursue a policy of neutrality for another two years. However, German submarine warfare was cited when the United States declared war in 1917.

Who won World War I?

The Allies won World War I after four years of combat and the deaths of some 8.5 million soldiers as a result of battle wounds or disease.

What was the significance of World War I?

Four imperial dynasties—the Habsburgs of Austria-Hungary, the Hohenzollerns of Germany, the sultanate of the Ottoman Empire, and the Romanovs of Russia—collapsed as a direct result of the war, and the map of Europe was changed forever. The United States emerged as a world power, and new technology made warfare deadlier than ever before.

What were the main provisions of the Treaty of Versailles?

The Treaty of Versailles gave Germany new boundaries. Alsace-Lorraine was given to France and Eupen-Malmédy to Belgium. Territory in eastern Germany was awarded to a reconstituted Poland. Memelland was placed under French supervision, and Saarland was placed under the administration of the League of Nations, but France was given control of its coal. In addition, a demilitarized zone was created between Germany and France. Germany was required to accept responsibility for causing all the damage of the war that was "imposed upon [the Allies] by the aggression of

Internal Revenue Acts of the United States, 1909-1950 Bernard D. Reams (Jr.), 1979 *Difficult Questions Have Easy Answers* Atina Hseham, 2023-12-06 An inquiry made to obtain any information is known as an interrogation While asking the person tries to get an answer that allows him to satisfy his doubts The interviewers often ask simple questions in a very twisted fashion to confuse the candidates Difficult questions answers reflect the knowledge of the giver as well as his overall personality For example Which is heavier a kilogram of feathers or 1000 grams of lead Solution Both the weights are equal And What

happened in Kolkata yesterday from 8 to 9 o'clock Solution An hour had passed These questions have a trick because they are framed in such a way that the answers seem simple but in reality they are not It can be said that the questioners confuse the candidates as they hide their answers using rhetorical resources and various devices In some cases the answer is found in the question itself but in secret Tricky questions are also used for fun or as a mental activity of logical practice Like a truck driver passing down a street in the wrong direction some policemen saw him but they didn't say anything to him why Solution Because the truck driver was on foot He shaves all day but still has a beard who is he Solution Barber Some months have thirty days and others thirty one but how many months have twenty eight Solution Every month has at least twenty eight days Which object becomes wet When it dries Solution Towel How do you draw a square with three lines Solution draw the square first and then draw three lines inside the square Thus an answer to a tricky question can lead to confusion due to the confusion generated question These types of questions are very specific to the areas in which people's knowledge or behavior is evaluated Generally such difficult questions can be perceived as misleading or incorrect because something is being implied that is not in reality However they can also be seen as methods whose precise purpose is to test the candidate and determine whether he or she is fully capable of answering the question that he or she is saying I know In this way about five thousand questions and answers have been given in the present book which is equally useful for all competitive examinations
