COSSAC Stephen Kepher,2020-05-15 When Frederick Morgan was appointed COSSAC Chief of Staff to the Supreme Allied Commander in the spring of 1943 there was no approved plan for a cross Channel attack and no commander There was not even agreement about when the re entry into the Continent would occur The western Allies were in the midst of a great debate about the strategy or strategies to defeat Nazi Germany COSSAC s primary task was to create a plan that would be approved by the inter allied Combined Chiefs of Staff To gain that authorization Morgan had to decide where the attack was to take place address the need for improvised shelters for the transport ships until a port could be captured create all the structure necessary for a multi national force that would liberate countries not occupy them and convince his superiors that it could be done with the limited forces they were willing to provide COSSAC presents a new interpretation of Morgan s vital contributions to the development of the OVERLORD plan by exploring his leadership his unorthodox approach to problem solving and his willingness to disregard or modify orders he thought wrong By constantly taking the initiative to move the discussions forward Morgan secured the needed political approval of a concept for the Normandy landings that

The Kingdom of God Has No Borders Melani McAlister, 2018-07-02 Award of Merit 2019 Christianity Today Book Awards History Biography More than forty years ago conservative Christianity emerged as a major force in American political life Since then the movement has been analyzed and over analyzed declared triumphant and more than once given up for dead But because outside observers have maintained a near relentless focus on domestic politics the most transformative development over the last several decades the explosive growth of Christianity in the global south has gone unrecognized by the wider public even as it has transformed evangelical life both in the US and abroad The Kingdom of God Has No Borders offers a daring new perspective on conservative Christianity by shifting the lens to focus on the world outside US borders Melani McAlister offers a sweeping narrative of the last fifty years of evangelical history weaving a fascinating tale that upends much of what we know or think we know about American evangelicals She takes us to the Congo in the 1960s where Christians were enmeshed in a complicated interplay of missionary zeal Cold War politics racial hierarchy and anti colonial struggle She shows us how evangelical efforts to convert non Christians have placed them in direct conflict with Islam at flash points across the globe And she examines how Christian leaders have fought to stem the tide of HIV AIDS in Africa while at the same time supporting harsh repression of LGBTQ communities Through these and other stories McAlister focuses on the many ways in which looking at evangelicals abroad complicates conventional ideas about evangelicalism We can't truly understand how conservative Christians see themselves and their place in the world unless we look beyond our shores
