Andersson, David Emanuel Andersson, 2017-07-28 In this challenging book the authors demonstrate that economists tend to misunderstand capital Frank Knight was an exception as he argued that because all resources are more or less durable and have uncertain future uses they can consequently be classed as capital Thus capital rather than labor is the real source of creativity innovation and accumulation But capital is also a phenomenon in time and in space Offering a new and path breaking theory they show how durable capital with large spatial domains infrastructural capital such as institutions public knowledge and networks can help explain the long term development of cities and nations Sustainable Development Risks and Risk Management Elena G. Popkova, 2023-10-19 This book is devoted to a systemic study of socio economic development risks arising in the Decade of Action as well as the prospects for risk management in support of sustainable development It aims to overcome fragmentary consideration of risks in the existing literature through their comprehensive coverage and the establishment of their

interconnections from the perspective of sustainable development. The novelty of this book is that it provides a comprehensive accounting of socio economic development risks in the Decade of Action as well as a rethinking of these risks from a sustainable development perspective The book also opens up the possibility of the most comprehensive and effective risk management in support of sustainable development The practical relevance of the book stems from the fact that it describes and discusses practical experience in detail and accompanies the theoretical material with numerous case studies including cases and frameworks with extensive coverage of international best practices The book is intended for scholars for whom the book forms a systemic scientific view of the risks of socio economic development arising in the Decade of Action as well as the prospects for risk management in support of sustainable development The book is also of interest to practitioners for whom it offers practical advice on risk management at all levels of the economy for sustainable development Many examples from different countries make the book attractive to a wide international audience The book is of particular interest to readers from Russia Bazaar Exchange and Mart, and Journal of the Household ,1883 Value in Social Theory Paul Streeten, 2013-11-05 This is Volume XXI of twenty two in a series on Social Theory and Methodology First published in 1958 this is a selection of essays on practical methodology when trying to answer the question of what are the new presuppositions of social thought which can do justice to the changes in social organisation Mydral attempts to illustrate his repeated attempts to explore the logical political and moral foundations of social thought and action as he pursued diverse academic and political activities Gender-responsive value chain analysis in Albania FAO; UN Women, 2024-10-31 Rural women are crucial contributors to Albania's agricultural sector and rural economy They are actively involved in all stages of agrifood value chains as farmers producers processors and consumers Yet structural barriers limit their access to economic opportunities thereby restricting also agrifood value chain sustainable and inclusive development This publication employs FAO s gender responsive value chain approach to analyze three case studies from Elbasan Puka and Leskovik It highlights the opportunities for strengthening the role of women producers and processors in value chains and identifies key barriers that hinder women s full participation Agribusiness incubators are highlighted in the report as innovative solutions designed to meet the specific needs of rural women and promote their economic empowerment These incubators could play a crucial role in helping women overcome barriers in the agrifood sector fostering their participation and unlocking new opportunities for the development of specific agrifood value chains **Contra Keynes and Cambridge** F. A. Hayek, 2012-09-21 In 1931 when the young F A Hayek challenged the economic theories of John Maynard Keynes sixteen years his senior and one of the world's leading economists he sparked a spirited debate that would influence economic policy in democratic countries for decades Their extensive exchange lasted until Keynes s death in 1946 and is reprinted in its entirety in this latest volume of The Collected Works of F A Hayek When the journal Economica published a review of Keynes s Treatise on Money by Hayek in 1931 Keynes s response consisted principlally of an attack on Hayek s own work on

monetary theory Prices and Production Conducted almost entirely in economics journals the battle that followed revealed two very different responses to a world in economic crisis Keynes sought a revision of the liberal political order arguing for greater government intervention in the hope of protecting against the painful fluctuations of the business cycle Hayek instead warned that state involvement would cause irreparable damage to the economy This volume begins with Hayek s 1963 reminiscence The Economics of the 1930s as Seen from London which has never been published before The articles letters and reviews from journals published in the 1930s are followed by Hayek's later reflections on Keynes's work and influence The Introduction by Bruce Caldwell puts the debate in context providing detailed information about the economists in Keynes's circle at Cambridge their role in the acceptance of his ideas and the ways in which theory affected policy during the interwar period Caldwell calls the debate between Hayek and Keynes a battle for the minds of the rising generation of British trained economists There is no doubt that Keynes won the battle during his lifetime Now when many of Hayek's ideas have been vindicated by the collapse of collectivist economies and the revival of the free market around the world this book clarifies Havek's work on monetary theory formed in heated opposition to Keynes and illuminates his efforts to fight protectionism in an age of economic crisis F A Hayek 1899 1992 recipient of the Medal of Freedom in 1991 and co winner of the Nobel Memorial Prize in Economics in 1974 was a pioneer in monetary theory and the principal proponent of classical liberal thought in the twentieth century He taught at the University of London the University of Chicago and the University of Background Notes on Sustainable, Productive and Resilient Agro-Food Systems Value Chains, Human Freiburg Capital, and the 2030 Agenda OECD, Food and Agriculture Organization of the United Nations, 2019-07-23 This report prepared by FAO and the OECD with inputs from ERIA IFPRI IFAD and WTO has been submitted to the G20 Presidency of Japan in response to the Presidency's request for background notes on Sustainable Productive and Resilient Agro Food Systems value chains human capital and the 2030 Agenda <u>Up-skilling human capital for value-chain competitiveness in</u> Uruguay Freeman, K., Dias Pereira, L., Bullor, L., Perego, V.M.E., Escudero, D., Voss, F., Pessoa, T., 2021-10-25 Investing in farmers or agriculture human capital is crucial to addressing challenges in our global agri food systems from sustainably feeding the world's growing population with food that is safe healthy and nutritious to finding innovative solutions for more resilient and climate smart agriculture Up skilling human capital for value chain competitiveness in Uruguay was developed by the FAO Investment Centre and the World Bank with the objective to identify ways to upskill human capital and make Uruguayan agricultural value chains more competitive This publication looks at opportunities to increase key value chain efficiency and at the skills that are required to seize such opportunities It identifies ways to develop human capital through training agricultural professionals including researchers agronomists and technicians to lead the next generation of technology and innovation driven agribusinesses It suggests options for fostering a process of continuous development and upskilling in the agricultural sector in Uruguay This publication is part of the Country Investment Highlights series under the

FAO Investment Centre s Knowledge for Investment K4I programme Shea value chain as key pro-poor carbon-fixing engine in West Africa Food and Agriculture Organization of the United Nations, Global Shea Alliance, 2020-02-07 As part of its Sustainability Program the Global Shea Alliance GSA in partnership with the Food and Agriculture Organisation of the United Nations FAO Regional Office for Africa conducted this multi impact appraisal of the shea value chain in 8 West African countries that account for 99% of shea exports The study uses the EX ACT Value Chain tool EX ACT VC developed in 2016 by the FAO to assess the value chain s contribution to climate mitigation climate resilience and socio economic impact At present the shea value chain fixes 1 5 million tons of CO2 every year Relative to production volumes every ton of shea kernels produced has a negative carbon footprint of 1 04 tons of CO2 With an expansion strategy supported by donors and private partners to increase shea tree population in agroforestry areas by 7 million additional trees per year the CO2 fixed could increase up to 9 million tons of CO2e per year leading to an aggregated carbon fixing impact of 180 million tons of CO2e over 20 years Through shea parklands expansion and improvement of collector productivity the gross income per woman collector could increase to US 167 year while the value added per day of work will reach US 2 30 The global value chain will reach a gross production value of about US 593 million representing 6% growth per year between 2019 and 2032 and a value added of US 452 million by 2032 Promoting fruit and vegetable value chains to improve supply and consumption Food and Agriculture Organization of the United Nations, Ministry of Social Development and Family of Chile, 2021-12-21 Policies with a focus on fruits and vegetables F Vs need special consideration because of the high perishability and susceptibility of F Vs to waste and loss high labour demand yield variations and high consumer prices Factors that limit the availability and affordability of F Vs include low production and productivity the loss of agrobiodiversity inadequate technology logistics and infrastructure weak organizational business and technical skills and inefficient market linkages across the supply chain Many value chains for F Vs need improvements investments and shortening as well as gender responsive approaches including gender sensitive investments to achieve better producer prices lower risk and higher quality especially for small farmers The Hidden Costs of Coffee Production in the Eastern African Value Chains Adong, A.; Kornher, L.; Chichaibelu, B.B.; Arslan, A., 2024-11-08 There is growing recognition that significant costs associated with food systems remain unaccounted for in market prices Coffee is the second most traded commodity in the world and the most traded agricultural commodity More than 30 million smallholder households rely directly on coffee income This background paper includes a study that attempts to quantify the environmental and social externalities of coffee value chains in three countries in Eastern Africa Ethiopia Uganda and the United Republic of Tanzania Using a refined and simplified methodologies to quantify social and environmental externalities associated with climate water child labour gender inequality and the living income gap the paper applies the marginal damage cost approach to monetize the hidden costs Both social and environmental externalities contribute significantly to the hidden costs of Eastern African coffee value chains with

Robusta coffee boasting considerably higher social hidden costs from the living income gap than Arabica due to its lower farm gate prices and profit margins Hidden costs associated with the living income gap constitute the largest share particularly in Ethiopia Large variations in hidden costs in different production systems and regions are identified The paper provides four important recommendations for policymakers in producing and importing countries *Understanding women's roles and trade potential along the fisheries and aquaculture value chains: Case studies from Ghana and Nigeria* Okafor-Yarwood, I.,Tiwaah, Y.,Johnson, K.R.,Elegbede, I.,2024-08-13 This qualitative study was developed under the Empowering women and boosting livelihoods through agricultural trade Leveraging the AfCFTA programme co implemented by the Food and Agriculture Organization of the United Nations FAO and the International Trade Centre ITC It seeks to assess gender dynamics along the fisheries and aquaculture value chains in Ghana and Nigeria focusing particularly on women s roles barriers and trade potential This report also provides gender specific recommendations to address the identified challenges and enhance women s trade potential in the selected regional value chain in Ghana and Nigeria

Expected Utility Hypotheses and the Allais Paradox M. Allais, G.M. Hagen, 2013-03-14 Utility theory or value theory in general is certainly the cornerstone of decision theory game theory microecon mics and all social and political theories which deal with public decisions Recently the American School of utility founded by von N eumann Morgenstern encountered a far going criticism by the French School of utility represented by its founder Allais The whole basis of the theory of decisions involving risk has been shaken and put into question Consequently basic research in the fundamentals of utility and value theory evolved into a crisis Like any crisis in basic research and this one was not an exception it was very fruitful One may simply say Allais versus von Neumann Morgenstern or the French School of utility versus the American School became one of the battlefields of scientific development which proved to be a most creative source of new advances and new developments in all those sciences which are based on evaluation of utilities Toolkit for value chain analysis and market development integrating climate resilience and gender responsiveness Food and Agriculture Organization of the United Nations, United Nations Development Programme, 2020-10-01 This toolkit aims to help countries in selecting and analysing value chains for opportunities to improve climate change resilience and reduce gender inequalities It intends to provide policy makers planners project developers technical advisors and implementers at local regional or national level with good practices of climate resilient and gender responsive value chain development It aims to act as a repository of relevant tools and methodologies for identifying relevant stakeholders and engaging with them to collect data and analyse it to design interventions Climate change threatens agricultural value chains and having a gender responsive value chain approach is useful in analysing the climate risks as it looks at stages during and beyond production while using a more systemic approach to risk management Classical Political Economy and Modern Theory Neri Salvadori, Christian Gehrke, Ian Steedman, Richard Sturn, 2013-06-17 Heinz Kurz is recognised internationally as a leading economic theorist and a foremost

historian of economic thought This book pays tribute to his outstanding contributions by bringing together a unique collection of new essays by distinguished economists from around the world Classical Political Economy and Modern Theory comprises twenty essays grouped thematically into five sections Part I examines political economy and its critique Part II looks at entrepreneurship evolution and income distribution Part III discusses Cambridge Keynes and macroeconomics Part IV explores crisis and cycles whilst Part V is dedicated to personal reminiscences The essays in this book will be an invaluable source of inspiration for economists interested in economic theory and in the evolution of economic thought They will also be of interest to postgraduate and research students specialising in economic theory and in the history of economic thought Evangelical Christendom ,1859 Mathematical Reviews ,2007

Worth The Risk English Edition: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have charmed audiences this year. Worth The Risk English Edition: Colleen Hoovers "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best: Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic: Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
