journey that becomes by virtue of her enormous gifts of observation perception and literary precision a universal story of fathers and daughters James Nichols was a fourth generation minister a retired professor from Princeton Theological Seminary Sue Miller brings her father brilliantly to life in these pages his religious faith his endless patience with his children his gaiety and willingness to delight in the ridiculous his singular gifts as a listener and the rituals of church life that stayed with him through his final days She recalls the bitter irony of watching him a church historian wrestle with a disease that inexorably lays waste to notions of time history and meaning She recounts her struggle with doctors her deep ambivalence about many of her own choices and the difficulty of finding continually the humane and moral response to a disease whose special cruelty it is to dissolve particularities and to diminish in so many ways the humanity of those it strikes She reflects unforgettably on the variable nature of memory the paradox of trying to weave a truthful narrative from the threads of a dissolving life And she offers stunning insight into her own life as both a daughter and a writer two roles that swell together here in a poignant meditation on the consolations of storytelling With the care restraint and consummate skill that define her beloved and best selling fiction Sue Miller now gives us a rigorous compassionate inventory of two lives in a memoir destined to offer comfort to all sons and daughters struggling as we all eventually must to make peace with their fathers and with themselves

engendered Part One focuses on the broader issues spawned by the genre itself including its various subgenres the line between fiction and fact to what degree must an author adhere to historical accuracy time boundaries the diary format the protagonist as the outsider who is entitled to write what and literary concerns such as the relationship between accuracy and readability Part Two explores issues of contemporary interest such as race class gender the immigrant experience religion war and nationalism Thought provoking discussions of how these elements are treated in historical novels with emphasis on how current cultural values have shaped the fiction are presented Finally the question of whether novels in this genre are bound by anything other than their respective period setting is posed and it is contended that there are features common to YA historical novels that not only set the genre apart from other YA fiction but also contribute something unique to the larger genre The genesis for much classroom debate suggestions for class discussions and writing assignments as well as sample written responses of these debates from the authors classes are included Teachers librarians instructors of young adult literature courses and teen readers will find this an insightful analysis of YA historical fiction
