Cogburn, 2012-09-11 This volume will convince readers that the swift ascent of the tabletop role playing game Dungeons and Dragons to worldwide popularity in the 1970s and 1980s is the most exciting event in popular culture since the invention of the motion picture Dungeons and Dragons and Philosophy presents twenty one chapters by different writers all D D aficionados but with starkly different insights and points of view It will be appreciated by thoughtful fans of the game including both those in their thirties forties and fifties who have rediscovered the pastime they loved as teenagers and the new teenage and college student D D players who have grown up with gaming via computer and console games and are now turning to D D as a richer fuller gaming experience The book is divided into three parts The first Heroic Tier The Ethical Dungeon Crawler explores what D D has to teach us about ethics and about how results from the philosophical study of morality can enrich and transform the game itself Authors argue that it's okay to play evil characters criticize the traditional and new systems of moral alignment and from the perspective of those who love the game tackle head on the recurring worries about whether the game has problems with gender and racial stereotypes Readers of Dungeons and Dragons and Philosophy will become better players better thinkers better dungeon masters and better people Part II Paragon Tier Planes of Existence arouses a new sense of wonder about both the real world and the collaborative world game players create Authors look at such metaphysical questions as what separates magic from science how we express the inexpressible through

collaborative storytelling and what the objects that populate Dungeons and Dragons worlds can teach us about the equally fantastic objects that surround us in the real world The third part Epic Tier Leveling Up is at the crossroads of philosophy and the exciting new field of Game Studies The writers investigate what makes a game a game whether D D players are artists producing works of art whether D D as one of its inventors claimed could operate entirely without rules how we can overcome the philosophical divide between game and story and what types of minds take part in D D

The Buffyverse Catalog Don Macnaughtan,2015-08-21 This bibliographic guide covers the Buffyverse the fictional worlds of the acclaimed television series Buffy the Vampire Slayer 1997 2003 and its spinoff Angel 1999 2004 as well as the original Buffy feature film of 1992 It is the largest and most inclusive work of its kind The author organizes and describes both the original texts of the Buffyverse episodes DVDs novels comic books games and more and the secondary materials created about the shows including books essays articles documentaries dissertations fan production and websites This vast and diverse collection of information about these two seminal shows and their feature film forebear provides an accessible authoritative and comprehensive survey of the subject

The Wargaming Compendium Henry Hyde,2013-08-19 An extensive reference guide to the exciting hobby for beginners as well as longtime players Wargaming is a fascinating engrossing and exciting pastime that encompasses a wide range of different talents The average wargamer uses the skills of artist designer sculptor illustrator historian librarian researcher mathematician and creative writer as well as the more obvious ones of general admiral or air marshal for large games or perhaps lieutenant commodore or squadron leader for skirmishes Aside from calling upon many skills wargaming also covers many aspects of combat spanning the history of Earth With science fiction gaming we plunge into imagined worlds many thousands of years into the future and a fantasy gamer of course deals with eons of imagined history as anyone who has read The Lord of the Rings will know A wargamer may find themselves recreating an encounter between a handful of adversaries one day or a massed battle involving perhaps hundreds of miniature troops the next Moreover it is possible to play wargames that recreate warfare on land on sea in the air or even in outer space This book demonstrates the wonderfully varied hobby of wargaming with miniatures looking at the broad scope of what it has to offer as well as detailed explanations of how to get involved including comprehensive rules for gladiator combat Wild West skirmishes and the horse and musket era as well as lots of advice for anyone new to wargaming Whether you re a complete newcomer to the hobby or a veteran of many years you ll find plenty in The Wargaming Compendium to entertain and inspire you

World of Warcraft Dale Roberts,2016-03-03 Research demonstrated some years ago that there is a strong positive correlation between play fun and organisational performance More recently organisations have started to wrestle with the idea of how to engage the skills and motivation of the video game generation as customers and as employees The practical application of gamification is part of the disruptive innovation that offers businesses radical new ways of working learning and performing In a nutshell gamification is the concept of applying engaging elements of game theory to

non game applications An example would be to create a game to learn something new for work Companies need to embrace the idea of blending games with work And in order for that to happen gamification must have a basic knowledge base and skill set as well as both theory and practical application of its core principles Dale Roberts s *World of Warcraft* provides the context and background to the need for and potential benefit of gamification as a means of turning a traditional corporate culture and structure into a dynamic community He also provides guidance on how to and how not to introduce these concepts successfully

Esports Research and Its Integration in Education Harvey, Miles M.,Marlatt, Rick,2021-06-25 The world of esports in education is booming and the field needs empirical studies to help ground much of what is going on in the field Over the last couple years there appears to be a large amount of anecdotal evidence surrounding esports and its role in education but researchers teachers coaches and organizations need peer reviewed research based evidence so they can evolve the field at large As the amount of esports teams and organizations continues to rise so will the need for the field to provide empirical research about esports and education and the effect it has on students and those who partake in it *Esports Research and Its Integration in Education* is an essential reference source for those interested in educational research related to esports topics as they are approached through multiple ages of schooling and infused throughout a variety of content areas and research methodologies The book covers empirical studies that help practitioners to understand how esports is developing within and around learning institutions and what the impact may be on students and their contemporary educational experiences Covering topics such as college and career readiness literacy practices and urban education this text is essential for stakeholders involved in the rise of esports administrators teachers coaches researchers students and academicians

A Kid's Guide to Arab American History Yvonne Wakim Dennis,Maha Addasi,2013 Presents step by step instructions for crafts based on Arab American customs along with a brief history of why the craft is important to Arab American culture

The Warcraft Civilization William Sims Bainbridge,2012-09-21 A FASCINATING DEEP DIVE FOR FANS OF WoW Exploring the popular online role playing game World of Warcraft as a virtual prototype of the real human future World of Warcraft is more than a game There is no ultimate goal no winning hand no princess to be rescued WoW is an immersive virtual world in which characters must cope in a dangerous environment assume identities struggle to understand and communicate learn to use technology and compete for dwindling resources Beyond the fantasy and science fiction details as many have noted it s not entirely unlike today s world In *The Warcraft Civilization* sociologist William Sims Bainbridge goes further arguing that WoW can be seen not only as an allegory of today but also as a virtual prototype of tomorrow of a real human future in which tribe like groups will engage in combat over declining natural resources build temporary alliances on the basis of mutual self interest and seek a set of values that transcend the need for war What makes WoW an especially good place to look for insights about Western civilization Bainbridge says is that it bridges past and future It is founded on Western cultural tradition yet aimed toward the virtual worlds we could create in
