

Unit 5: Revolutions Study Guide

C. 1750 - 1900

Topic 5.1 The Enlightenment

<p>Learning Objective</p> <p>Explain the intellectual and ideological context in which revolutions swept the Atlantic world from 1750 to 1900.</p>	<p>Historical Developments</p> <p>Enlightenment philosophies applied new ways of understanding and empiricist approaches to both the natural world and human relationships; they also re-examined the role that religion played in public life and emphasized the importance of reason. Philosophers developed new political ideas about the individual, natural rights, and the social contract.</p> <p>The rise and diffusion of Enlightenment thought that questioned established traditions in all areas of life often preceded revolutions and rebellions against existing governments.</p> <p>Nationalism also became a major force shaping the historical development of states and empires.</p>	<ol style="list-style-type: none"> 1. Explain the ideas of the Enlightenment. Human reasoning can discover truths about the world, politics, and religion to improve the lives of humankind. They rejected old beliefs and used logic to develop new ideas like fairness in sentencing criminals. 2. How were these ideas considered changes from previous philosophies/mindsets? When philosophers identified a principle to reject, they replaces it by asking questions that were important to finding evidence and the application of reason and logic. 3. What factors facilitated the spread of Enlightenment ideals within and outside of Europe? Printing press, salons, encyclopedia, newspapers, pamphlets, and political music. 4. Explain natural rights. Rights that are not dependent on the laws, customs, or beliefs of any culture or government, they are inalienable and universal. 5. Explain the social contract. An idea that all individuals surrender personal freedoms to a government or association, but that the government must rule with certain responsibilities. 6. Explain nationalism and how it will later play an important role in the political revolutions of the 18th and 19th centuries. Nationalism is a feeling of intense loyalty to others who share one's language and culture. The ideas that people who share a culture should live in an independent nation-state threatened to destroy all of Europe's multiethnic empires.
<p>Learning Objective</p> <p>Explain how the Enlightenment affected societies over time.</p>	<p>Historical Developments</p> <p>Enlightenment ideas and religious ideals influenced various reform movements. These reform movements contributed to the expansion of rights, as seen in</p>	<ol style="list-style-type: none"> 7. How did the Enlightenment lead to social changes during the 1750-1900 time period? It influences reform movements that contributed to the expansion of rights in expanded suffrage, the abolition of slavery, and the end of serfdom. 8. Explain the origins of feminism in this time period.
