Confucianism as a World Religion Anna Sun, 2013-04-21 Is Confucianism a religion If so why do most Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition Contested histories of Confucianism are vital signs of social and political change Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century

Religion and the Christian Faith Hendrik Kraemer, 2003-06 A rich and profound contribution to the debate on the position of modern Christianity opened up Kraemer's The Christian Message in a Non-Christian World In Religion and the Christian Faith he deals with many of the criticisms of his position and offers an apologia at once luminous and massive of the Christian religion as the revelation of God to Man and the faith for all mankind There is a decisive Christian finality about Kraemer's writing and his book is a significant contribution to the sharp discipline of faith and action under which the universal Christian community lives All the way through his formidably marshalled arguments run the undertones of Christian involvement in a real world a world which by his astonishing grasp of philosophy Biblical theology and the claims of religion and religions the Author brings alive to the reader The reading of this formative book with its strenuous demands on the reader's intelligence and Christian understanding is a rewarding experience Its significance for the Christian Church

throughout the world is obvious but it is also a monumental witness to the Christian religion for all those who ask not only for a faith once delivered but a faith to believe in their own day and generation

Religious Minorities and China Dr. Michael Dillon,2001 The treatment of religious minorities in China regularly makes headlines in the West In recent years China s treatment of the Falungong and its policies in Tibet and to a lesser extent Xinjiang have attracted much comment but this is rarely informed by an understanding of how China s policies towards religious minorities as a whole have developed This new MRG Report Religious Minorities and China fills that gap providing an authoritative overview of the major world religions in China Tibet and Xinjiang since 1949 The Report gives a history of the efforts of the Chinese Communist Party to control and during the Great Leap Forward and the Cultural Revolution to attack religious institutions It describes how since the Reform and Opening of 1978 onwards officially registered religious groups are tolerated and have some representation in a national forum Unofficial groups however are regarded as unpatriotic The Report focuses on Buddhism Christianity and Islam which the state considers synonymous with separatist movements and a threat to China s territorial integrity Tibet and Xinjiang with their Buddhist and Muslim populations respectively are contested territories and freedom of religion and association in these areas is particularly liable to suppression The Report also looks at the rise of the new religions focusing on the Falungong It concludes with a set of Recommendations urging China to implement the provisions of international standards on minority rights and freedom and to fulfil its obligations under the instruments to which it is party Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time
