Poison Arrows David E. Jones, 2022-02-24 A comprehensive survey of organic compounds used as poisons on arrows and spears in food and even as insecticides by numerous Native American tribes Biological warfare is a menacing twenty first century issue but its origins extend to antiquity While the recorded use of toxins in warfare in some ancient populations is rarely disputed the use of arsenical smoke in China which dates to at least 1000 BC for example the use of poison arrows and other deadly substances by Native American groups has been fraught with contradiction At last revealing clear documentation to support these theories anthropologist David Jones transforms the realm of ethnobotany in *Poison Arrows* Examining evidence within the few extant
