*Making Artisan Chocolates* Andrew Garrison Shotts, 2007-01-01 Forget milk chocolate molded into childish candy bars Today s chocolate candies use chocolates with high cocoa content and less sugar then previously available and are molded into highly decorated pieces of art Once only accessible to pastry chefs and candy makers home cooks can now purchase high end domestic and imported chocolates in their local specialty stores The recent availability of bittersweet chocolates coupled with our access to a global food market and unique ingredients has created an increased interest in artisanal chocolates Drew Shotts has been at the forefront of this renaissance because of his daring use of unique flavor combinations not typically associated with chocolates such as chili peppers maple syrup and spiced chai tea Making Artisan Chocolates shows readers how to recreate Drew s unexpected flavors at home through the use of herbs flowers chilies spices vegetables fruits dairies and liquors

Homemade Chocolate David a Osei, 2019-11-17 Most people have never really even though about making their own homemade chocolate they just buy chocolate bars or chocolate cookies at the store and don't

think twice about it But people have been making homemade chocolate for hundreds of years Some people think that homemade chocolate tastes much better than commercial chocolate And who doesn't love getting a special chocolate treat that was made just for them For people that have special medical conditions or dietary challenges that make it unhealthy for them to eat commercial chocolate that is loaded with sugar and fat making homemade chocolate is a good way for them to be able to enjoy having some chocolate without having to worry about the health problems that they would face from eating commercially made chocolate People that have severe allergies to things that are often found in commercially made chocolate like nuts have to be extremely careful about the types and brands of commercially made chocolate that they eat and many prefer to make homemade chocolate so that they know it's free of any nuts or nut products This is a huge concern for people that have diabetes because chocolate can wreak havoc with a diabetic's blood sugar levels Many doctors recommend that people who suffer from Diabetes give up chocolate all together or only eat sugar free chocolate Since it can be hard to find sugar free chocolate that is tasty and not expensive making homemade sugar free chocolate is a great alternative for diabetics If you have a diabetic family member you can make that person feel more at home on holidays or at parties by making special homemade sugar free chocolate that they can eat Another reason that you should give homemade chocolate making a try is because it's fun If you enjoy cooking then you will probably really enjoy the creative process of deciding what type of chocolates to make the experience of actually making the chocolate and then of course comes the fun of eating the chocolate Making homemade chocolate is a great rainy day activity that you can do with the kids to keep them busy and the chocolates that you make are wonderful gifts and party favors for holidays birthdays and other occasions Making homemade chocolate can also be a lot less expensive than buying commercially made chocolates especially around holidays like Christmas or Valentine's Day If you want to have some great gifts that people will really love without spending a fortune then you can make homemade chocolate gifts for people that are unique and personalized and don't cost that much to make Most people love to get homemade gifts and almost everyone loves chocolate so giving the gift of homemade chocolate is sure to be a hit
