Sex Is Forbidden

John Stoltenberg

Sex Is Forbidden:

Forbidden Sexuality Lamont Wall, 2007-10 Before you attempt the forbidden Satan paints a picture in your mind causing you to become curious He makes sex appear to be beautiful He tells you that it feels good and that it is satisfying but he never tells you how something that feels so good can make you feel so bad Find out how the misuse of a good thing can lead to the consequences of sickness disease and death Forbidden Sexuality What God Says About Sex is a final warning to the curious and a call to repentance for the experienced Learn why sex is restricted to a husband and wife what is sexually forbidden in the marriage and so much more **Sex searchlights and sane sex ethics**, 1922 **Sex Searchlights and Sane Sex Ethics** Lee Alexander Stone, 1922 **Dharmasutra Parallels** Patrick Olivelle, 2005-01-01 The Dharmasutra Parallels present in a synoptic layout of the passages in the four Dharmasutras of Apastamba Gautama Baudhayana and Vasistha deal with identical topics The Dharmasutras represent the oldest extant codification of Law in ancient India A close study of these early legal treatises is essential if we are to understand not only the legal but also the cultural and religious history of the three or four centuries prior to the common era a period that saw the beginnings of many of the features that we commonly associate with Indian civilization **Sexuality and the Sacred, Second Edition** Marvin M. Ellison, Kelly Brown Douglas, 2010-09-21 Christian discourse on sexuality spirituality and ethics has continued to evolve since this book's first edition was published in 1994 This updated and expanded anthology featuring more than thirty contemporary essays includes more theologians and ethicists of color and addresses issues such as the intersection of race racism and sexuality transgender identity same sex marriage and reproductive health and justice **Refusing to be a Man** John Stoltenberg, 2005-07-28 Since its original publication in 1989 Refusing to be a Man has been acclaimed as a classic and widely cited in gender studies literature In 13 eloquent essays Stoltenberg articulates the first fully argued liberation theory for men that will also liberate women He argues that male sexual identity is entirely a political and ethical construction whose advantages grow out of injustice His thesis is however ultimately one of hope that precisely because masculinity is so constructed it is possible to refuse it to act against it and to change A new introduction by the author discusses the roots of his work in the American civil rights and radical feminist movements and distinguishes it from the anti feminist philosophies underlying the recent tide of reactionary mens movements **Hobbes on Sex** Susanne Sreedhar, 2025-07-16 Why care what Hobbes thought about sex Contemporary scholars have largely dismissed Hobbes's brief and somewhat scattered remarks about gender and sexuality as peripheral to his central concerns In Hobbes on Sex the first book length study of Hobbes's writings on these topics Susanne Sreedhar challenges this dismissal Far from being haphazard or tangential Hobbes's views on sex are integral to his broader philosophical political project Drawing out the underlying logic of his claims this volume reconstructs a coherent substantive and distinctive account of sexual normativity from Hobbes's various remarks It argues that in stark contrast to many of his contemporaries and the traditions from which he emerges Hobbes is logically committed

to a view it calls sexual positivism According to Hobbes the nature and status of gender and sexuality from the proper organization of marriage and the family to prohibitions on sexual behaviors to the differences between men and women to the legitimacy of female rule are entirely a matter of positive i e civil law Because matters of gender and sexuality are the result of human action for Hobbes they are fundamentally contingent and revisable This contingency stands in contrast with the pervasive and entrenched ways both natural patriarchalism and sexual moralism were enthroned in much of early modern political theorizing The volume argues that Hobbes s sexual positivism dethrones sex from its usual prominent position in the history of philosophy By systematically stripping gender and sexuality of their privileged status whether as a source of normativity or as a topic of inquiry this dethroning of sex strikes at the heart of beliefs about human nature moral knowledge and social and political institutions that are widely accepted even today This novel interpretation of Hobbes s views on sexual normativity not only challenges traditional understandings of the trajectory of early modern political thought but it also suggests a new understanding of his place in the intellectual history of sex

Sex and Society in the World of the Orthodox Slavs 900-1700 Eve Levin, 2018-09-05 In this pioneering book Eve Levin explores sexual behavior among the peoples of Serbia Bulgaria and Russia from their conversion to Christianity in the ninth and tenth centuries until the end of the seventeenth century By ranging across all these societies Levin is able to fulfill three basic aims to delineate the general character of sexuality among the Orthodox Slavs to enrich that account by drawing our attention to regional variations in the sexual mores of these peoples and to draw suggestive comparisons between the world of the medieval Orthodox Slavs and their contemporaries in the Latin West Levin begins with a study of the ecclesiastical image of sexuality as expressed in didactic and literary texts showing that the Orthodox Church was deeply suspicious of sexuality Her second chapter on canon law and marriage examines the conditions for marriage divorce and remarriage the obligation of the conjugal relationship and the impact of these rules on social order Levin looks at church regulations concerning sexual relations among relatives by blood marriage spiritual kinship and adoption in Chapter Three and she devotes Chapter Four to prohibited sexual practices both inside and outside of marriage In the fifth chapter she studies Russian and South Slavic responses to rape and demonstrates that these societies simultaneously censured violence against women and sanctioned the attitudes and social structures that justified it Chapter Six deals with the rules on sexual conduct for the clergy whose job it was to enforce sexual precepts Throughout her work Levin argues that despite its conviction that sexual expression was diabolical the medieval Orthodox Church approached sexual matters in a surprisingly practical way its official sexual ethic corresponded to a great degree with popular views Historians of the Slavic world both medieval and modern will welcome this accessible study It should also attract comparativists who work in such fields as church history the history of women and the family and the history of sexuality

The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945, Volume IV Geoffrey P. Megargee, Mel Hecker, 2022-04-26 The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos 1933 1945 Volume IV aims to provide as much basic information as possible about individual camps and other detention facilities Why were they established Who ran them What kinds of prisoners did they hold What kinds of work did the prisoners do and for whom What were the conditions like The entries detail the sources from which the authors drew their material so future scholars can expand upon the work Finally and perhaps most important this is a work of memorialization it preserves the histories of places where people suffered and died Volume IV examines an under researched segment of the larger Nazi incarceration system camps and other detention facilities under the direct control of the German military the Wehrmacht These include prisoner of war POW camps including camps for enlisted men camps for officers camps for naval personnel and airmen and transit camps civilian internment and labor camps work camps for Tunisian Jews brothels in which women were forced to have sex with soldiers and prisons and penal camps for Wehrmacht personnel Most of these sites have not been described in detail in the existing historical literature and a substantial number of them have never been documented at all The volume also includes an introduction to the German prisoner of war camp system and its evolution introductions to each of the various types of camps operated by the Wehrmacht and entries devoted to each individual camp representing the most comprehensive documentation to date of the Wehrmacht camp system Within the entries the volume draws upon German military documents eyewitness and survivor testimony and postwar investigations to describe the experiences of prisoners of war and civilian prisoners held captive by the Wehrmacht Of particular note is the detailed documentation of the Wehrmacht's crimes against Soviet prisoners of war which have largely been neglected in the English language literature up to this point despite the fact that more than three million Soviet prisoners died in German captivity The volume also provides substantial coverage of the diverse range of

conditions encountered by other Allied prisoners of war illustrating both the substantial privations faced by all prisoners of war and the stark contrast between the Germans treatment of Soviet prisoners and those of other nationalities The volume also details the significant involvement of the Wehrmacht in crimes against the civilian populations of occupied Europe and North Africa As a result this volume not only brings to light many detention sites whose existence has been little known but also advances the decades old process of dismantling the myth of the clean Wehrmacht according to which the German military had nothing to do with the Holocaust and the Nazi regime s other crimes
