Best Tips and Strategy Guides for DotA 2 In 2019 Minh Hoang Pham,2019-08-26

Dota 2 is a world famous online MOBA played by millions of people across the globe The title was formally announced in October 2010 and released as a free to play game three years later The game is based on an enormously popular Warcraft 3 mod the Defense of the Ancients hence the name DotA Two years after its release the game had a million concurrent players become its own eSports discipline with their DotA Heroes and firmly established itself as a legend in the gaming world Seriously you can love or hate Dota but you can't deny its influence on the industry This is the new version of DotA 2 Game guide in 2019 that contains many tips tricks hero builds best strategies and more How to play Dota 2 You'll have to spend thousands of hours of gameplay to learn all the secrets of the game and writing them down will take at least two volumes But we all have to start somewhere right So welcome to the realm of Dota 2 Defense of the Ancients 2 your point of no return DotA 2 looks like an easy game on the outside but it's really complex and hard to master Finding your way up the division is something not to be taken lightly And if you want to move up and are having a hard time doing so then honestly there are a lot of things that you might be doing wrong Meanwhile many know the basics of the game but when it comes to playing in the proper roles strategies and hero pick they fail to decide what they must do There are many players who do specific things just because they saw the pros of doing it Although what the pros do is something that should be followed the most important thing is knowing the reasons behind it A good example of this might be pulling the creeps while your team is pushing the enemy tower trying to bring it down So take a look at this book and see what interests you
