Shadow Puppet Templates For Children:

The Shadow Puppet Theatre of Malaysia Beth Osnes, 2014-01-10 This comprehensive book explores the Malaysian form of shadow puppet theatre highlighting its unique nature within the context of Southeast Asian and Asian shadow puppet theatre traditions. Intended for a Western audience not familiar with Asian performance and practices, the text serves as a bridge to this highly imaginative form. An in-depth examination of the Malaysian puppet tradition is provided, as well as performance scripts, designs for puppet characters, instructions for creating a shadow screen, and easy directions for performance. Another section then considers the practical, pedagogical, and ethical issues that arise in the teaching of this art. **Learning**

Practical Puppetry A-Z Carol R. Exner, 2005-09-08 Puppetry is an exciting, flexible, malleable art form that can engage the creative forces of children or adults. Puppets can not only tell a story; they can be used to enhance the curriculum, present an idea or a concept in a compelling way, or teach any number of necessary skills. Children and adults presenting a puppet play are given a sense of their own inventive power. This reference work offers an A to Z view of working with puppets. It covers everything from the basic strategies of advertising and marketing puppet productions to assembling the puppets out of household materials such as paper bags, cereal boxes, or gloves, to the more elaborate sculpting of armatures. Stages, curtains, and props are also discussed along with the history of puppetry. Numerous illustrations give a visual of many of the finished products. This work concludes with an annotated bibliography and index. **Puppetry in Theatre and Arts**

Modules on Developing Life Skills of Four to Five Year Old Children Using Digital Stories and Activities Priscilla Angelique Pegollo, MAEd, 2022-03-18 The concept of the modules is based on the author's observations in the early education system that is failing to deliver the outcomes needed to advance the young learner's social skills and development This scenario will later on affect the education opportunities in the future which will contribute to the country's economic growth Thus the successful performance in preschool needs to be supported by life skills and values which should be fostered by our education systems Teaching life skills with hands on activities is a bit behind because

most of the preschool curriculum are merely focused on academics in preparation for Grade 1. The modules are designed to help teachers, parents, school, and education in general to teach life skills through digital storytelling and facilitate hands-on and digital activities in virtual learning. The format of the modules' activities is anchored on the play-based and learner-centered teaching method to immerse the preschool students in fun, meaningful learning experiences. After the discussion, students will perform the oral activity to practice how they express their thoughts and feelings or insights about the lesson. The hands-on activity and games will be the students' application of the lesson they learned.
