Share! Neil Ullman, Robert Henry, 2014-11-13 There is a universal story that involves the arguments and battles that occur among our children and grandchildren when one of them gets into the others stuff Inevitably the adults get involved and resort to introducing that terrible word SHARE which often leads to more anger and more conflict But perhaps the kids can actually reach a point where they overcome this problem and learn that maybe share is not such a bad word after all The authors grandson Aaron tells this story about how all was great until his baby brother Sage began to get bigger and into his toys We follow the encounters that take place the ups and downs and learn how things finally work out We are also excited to offer two different visual presentations of the story This book is called Share The Artists Rendition The author gave the script of the book to Robert Henry who re interpreted the scenes and created a professionally drawn version The other book is subtitled The Original Version and consists of the authors sketchy drawings often based on actual photographs of the kids

Neuroscience in Science Fiction Films Sharon Packer, M.D., 2014-11-20. As the gap between science fiction and science fact has narrowed, films that were intended as pure fantasy at the time of their premier have taken on deeper meaning. This volume explores neuroscience in science fiction films focusing on neuroscience and psychiatry as running themes in SF and finding correlations between turning points in neuroscience fiction and advances in the scientific field. The films covered include *The Strange Case of Dr Jekyll and Mr Hyde*, *The Island of Dr Moreau*, *Robocop*, *The Stepford Wives*, *The Mind Snatchers* and iconic franchises like *Terminator*, *Ironman* and *Planet of the Apes*. Examining the parallel histories of psychiatry, neuroscience and cinema, this book shows how science fiction films offer insightful commentary on the scientific and philosophical developments of their times.

Miranda July's Intermedial Art Antje Czudaj, 2016-02-15. This first in-depth study of Miranda July's work reveals some of its major motives and consequently provides fascinating insights into the lifestyle of the contemporary white Californian middle class. Through an analysis of July's award-winning intermedial work, the author lays open how July takes individualism and self-help as constitutive for the creative class. Although a member of the creative class herself, July's voice oscillates between irony and approval. July thus paints a fascinating portrait of neurotic hipsterism which triggers self-reflection in the general reader and critical thinking in the cultural analyst.
