An Illustrated Guide to Practical Sexual Positions C. W. Pollard, 2012-01-12. When you first start having sex, you are just happy to be doing it, and you give little thought to all the possibilities that exist as to how men and women pair together. That doesn't last long. Once you have begun having sex, there is a strong desire to explore and see just how many ways you can find that we can fit together with no pieces left over. This book was written to aid you in that quest. Now there is nothing new about a sexual positions manual. The famous Indian love manuals were written thousands of years ago and stand as proof to humankind's enduring desire for knowledge on the subject. However, based on my own experience, many of the love manuals that exist are full of impractical positions that you need to be a contortionist to appreciate. I'm not, and I am willing to bet you aren't either. Chances are you are a horny man or woman that is set on seeing what practical possibilities exist for you in the bedroom. Hopefully, this is what you are getting in this book. This is a book full of practical sexual positions. These positions are comfortable and can be assumed by anyone. You don't need any sex swings, straps, pulleys, or cranes to make them work. Two horny people and a comfortable place will suffice. In addition to not needing anything special to assume these positions, this book also will present in practical terms the strengths and weaknesses of the positions in no-nonsense, easy-to-understand terms. This is exactly the book you need to spice up your bedroom antics and create a richer, more fulfilling, wilder, and interesting sex life.
