Working with indigenous knowledge Fhumulani M. Mulaudzi, Rachel T. Lebesse, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeless and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research

World of Heart Attack Gift Jerry Baloyi, 2015-12-19 This book teaches you how to be honest to yourself and how to handle the truth about your past and you will learn that everything that is happening in your life you have to take it seriously because he who loves glass without G takes away L and that is he and you must learn to correct the corrections that has been corrected by the corrector before the corrector corrects them Include God in your life as hes the one who created heaven and earth

Printed Annexures to the Votes and Proceedings of the House of Assembly South Africa. Parliament. House of Assembly,1927 *Bridging constructions* Valérie Guérin,2019 Many descriptive grammars report the use of a linguistic pattern at the interface between discourse and syntax which is known generally as tail head linkage This volume takes an unprecedented look at this type of linkage across languages and shows that there exist three distinct variants all subsumed under the hypernym bridging constructions The chapters highlight the defining features of these constructions in the grammar and their functional properties in discourse The volume reveals that Bridging constructions consist of two clauses a reference clause and a bridging clause Across languages bridging clauses can be subordinated clauses reduced main clauses

or main clauses with continuation prosody Bridging constructions have three variants recapitulative linkage summary linkage and mixed linkage They differ in the formal makeup of the bridging clause In discourse the functions that bridging constructions fulfil depend on the text genres in which they appear and their position in the text If a language uses more than one type of bridging construction then each type has a distinct discourse function Bridging constructions can be optional and purely stylistic or mandatory and serve a grammatical purpose Although the difference between bridging constructions and clause repetition can be subtle they maintain their own distinctive characteristics *Climate Change* Trevor
