Information and Data Convergence Disruptive Technologies for Future E Governance and Smart World **Shadow Algorithms Data Miner** Andrew Woo,Pierre Poulin,2012-06-12 Shadow Algorithms Data Miner provides a high level understanding of the complete set of shadow concepts and algorithms addressing their usefulness from a larger graphics system perspective It discusses the applicability and limitations of all the direct illumination approaches for shadow generation With an emphasis on shadow fundamentals the book gives an organized picture of the motivations complexities and categorized algorithms available to generate digital shadows It helps readers select the most relevant algorithms for their needs by placing the shadow algorithms in real world contexts and looking at them from a larger graphics system perspective As a result readers know where to start for their application needs which algorithms to begin considering and which papers and supplemental material should be consulted for further details **Next-Generation Memory and Ukrainian Canadian Children's Historical Fiction** Mateusz Świetlicki,2023-03-24 This is the first book monograph devoted to Anglophone Ukrainian Canadian children s historical fiction published between 1991 and 2021 It consists of five chapters offering cross sectional and interdisciplinary readings of 41 books novels novellas picturebooks short stories and a graphic novel The first three chapters focus on texts about the complex process of becoming Ukrainian Canadian showcasing the experiences of the first two waves of Ukrainian immigration to Canada including encounters with Indigenous Peoples and the First World War Internment The last two chapters are devoted to the significance of the cultural memory of the Holodomor the Great Famine of 1932 1933 and the Second World War for Ukrainian Canadians All the chapters demonstrate the entanglements of Ukrainian and Canadian history and point to the role Anglophone children s literature can play in preventing the symbolical seeds of memory from withering This volume argues that reading imagining and reimagining history can lead to the formation of beyond textual next generation memory Such memory created through reading is multidimensional as it involves the interpretation of both the present and the past by an individual whose reality has been directly or indirectly shaped by the past over which they have no influence Next generation memory is of anticipatory character which means that authors of historical fiction anticipate the readers both present day and future not to have direct links to any witnesses of the events they discuss and to have little knowledge of the transcultural character of the Ukrainian Canadian diaspora **Balinese Discourses on Music and Modernization** Brita Heimarck Renee,2013-08-21 While many Western scholars have discussed the technical aspects of Balinese music or the traditional contexts for performance little has been written in Western languages about Balinese discourses on their music This dissertation seeks to understand the experience of music in Bali according to Balinese voices through an analysis of oral and written dialogues on music mainly by musicians and dalangs shadow play puppeteers from the village of Sukawati scholars teachers administrators and students from the Indonesian College of the Arts STSI in the City of Denpasar The study examines the influence of modernization on the traditional arts and their role in society A concentration on Balinese discourses enables individual performers and

scholars to represent themselves to a greater extent than previously seen in ethnomusicological scholarship making this study more of a critical discussion among equals than a Western interpretation of others This approach permits a rare view into contemporary Balinese conceptions and practices of music   The Shadow's Gift Robin Robertson,2011-04-01 There is no change that doesn t begin in the darkness of the human soul The necessity for the confrontation with the Shadow has been known by all cultures in all times and recorded in their myths and legends When the obligation to become whole is laid upon an individual the first task he must undertake is to confront his Shadow The Shadow s Gift Find Who You really Are is about the Shadow contained in each of us and why we must each join with our shadow the archetype of darkness and evil in order to become whole This heroic process is crucial as the projection or denial of the Shadow twists its true meaning into a destructive counter evolutionary force Owning and integrating our shadow allows its transformation in both the world and us The Shadow is a paradox While it initially appears to us as loathsome and despicable it actually contains all our future potentialities for development Perhaps more than any other Robin Robertson discusses it from a the perspective of a belief in the inherent potential good of the Shadow and its ability to assist us in our quest for self actualization Robin Robertson draws from stories of real people s lives the Bible fairy tales and legends modern fiction and the work of famed depth psychologist C G Jung as well as his own experiences His writing is intimate and accessible and his insights and wisdom are conveyed in anecdotal and easy to understand language with clarity and depth   Next Generation Telecommunications Networks, Services, and Management Thomas Plevyak,Veli Sahin,2011-09-20 An unprecedented look into the present and future of next generation networks services and management in the telecommunications industry The telecommunications industry has advanced in rapid significant and unpredictable ways into the twenty first century Next Generation Telecommunications Networks Services and Management guides the global industry and academia even further by providing an in depth look at current and developing trends as well as examining the complex issues of developing introducing and managing cutting edge telecommunications technologies This is an orchestrated set of original chapters written expressly for this book by topic experts from around the globe It addresses next generation technologies and architectures with the focus on networks services and management Key topics include Opportunities and challenges of next generation telecommunications networks services and management Tri Quad Play and IP based networks and services Fault Configuration Accounting Performance and Security FCAPS requirements Convergence and an important convergence vehicle IP Multimedia Subsystem IMS Next generation operations and network management architecture Ad hoc wireless and sensor networks and their management Next generation operations and network management standards from a strategic perspective A defining look at the future in this field This book will serve as a contemporary reference for the growing global community of telecommunication and information professionals in industry government and academia It will be important to faculty and graduate students of telecommunications as a graduate textbook   *Shadow Working in Project Management* Joana Bértholo,2017-07-06 Shadow

Working in Project Management aims at contributing to our knowledge of all things unconscious and irrational in our behaviour It takes the form of an empirical research and therefore addresses mostly the tools and techniques available to get in touch with Shadow aspects of self and collective to recognize how it manifests how it can lead to conflict and ways to address it From that perspective it advances on to question the underlying beliefs of current management practices It explores as well the inherent need for control in projects being those of a professional nature or other ventures It challenges the strength of the concept of the rational man and its protagonism Joana B rtholo s work explores the role and nature of the Shadow in the context of projects and their management with an emphasis on techniques to address it Despite being directed to managers and dedicated to the analyses of the managerial discourse the tools and processes it proposes have universal relevance based on the fact that the Shadow is everywhere within everyone from the individual to the global scale
