Runaway slave Sojourner Truth gained fame in the nineteenth century as an abolitionist feminist and orator and earned a living partly by selling photographic carte de visite portraits of herself at lectures and by mail Cartes de visite similar in format to calling cards were relatively inexpensive collectibles that quickly became a new mode of mass communication

Despite being illiterate Truth copyrighted her photographs in her name and added the caption I Sell the Shadow to Support the Substance Sojourner Truth Featuring the largest collection of Truth s photographs ever published Enduring Truths is the first book to explore how she used her image the press the postal service and copyright laws to support her activism and herself Darcy Grimaldo Grigsby establishes a range of important contexts for Truth s portraits including the strategic role of photography and copyright for an illiterate former slave the shared politics of Truth s cartes de visite and federal banknotes which were both created to fund the Union cause and the ways that photochemical limitations complicated the portrayal of different skin tones Insightful and powerful Enduring Truths shows how Truth made her photographic portrait worth money in order to end slavery and also became the strategic author of her public self **Catalogue of the Library** John E. Robbins Library,1889 *Most Uncommon Jacksonians* Edward Pessen,1967-06-30 The age of Jackson saw the beginnings of America s labor movement in the emergence both of trade unions and of the Working Men s political parties The leadership of this movement was one of its most outstanding and fascinating features These radical leaders were uncommon Jacksonians in that they stood apart from both main currents of their day the optimistic pursuit of material gain and the moralistic criticism of that pursuit by traditionalists They advocated a different if minority ideology and it is this ideology that is Professor Pessen s major concern in this book The labor spokesmen were as diverse and complex as the movement they led Some were employers rather than laborers and even the union leaders included men who had never actually soiled their hands in manual toil In a sense these leaders were middle class idealists interested in every variety of reform They were drawn to labor largely because they believed it the most productive as well as the most victimized group in American society For all their differences however the leaders social views were strikingly similar They saw America as a class society dominated by the wealthy in general capitalists in particular with the control of government and the courts in the hands of the rich Their picture of the contemporary social landscape was one marked by the poverty of the masses and vast disparities in wealth power and prestige Greatly influenced by English radical thought they rejected the Malthusian dictum that the poor were responsible for their own misery They fixed the blame instead on a number of social institutions the chief villain of which was private property Without using the word socialism the leaders vision of the good society was one in which no man profited from the labor of another and the guiding principle was to each according to his deeds Though a complex and often inconsistent phenomenon the political movement represented by the early Working Men s Parties was an authentic expression of labor s views Professor Pessen believes This study challenges the legend that organized labor enthusiastically supported Jackson and the longstanding myth that American labor movements have characteristically been conservative *Most Uncommon Jacksonians* adds new perspectives to the history of American social thought [Finding List of the Reddick's Public Library of Ottawa, Illinois. 1888](#) Reddick Public Library,1896 **Sotheran's Price Current of Literature** Henry Sotheran Ltd,1908 *Catalog of Copyright Entries* Library of Congress.
