Shafer Landau The Fundamentals Of Ethics Edition 2:

The Fundamentals of Reasons Mark Schroeder, Nathan Howard, 2025-05-17 The concept of a reason is now central to many areas of contemporary philosophy Key theses in ethics epistemology political philosophy philosophy of action and the philosophy of the emotions among others have come to be framed in terms of reasons And yet despite their centrality theorists seem to take inconsistent things for granted about how reasons work what kinds of things can be reasons what reasons favor and more Somehow reasons have come to be both indispensable and impenetrable The Fundamentals of Reasons offers a comprehensive introduction to the philosophy of reasons Focusing on the twin roles of reasons in explanation and deliberation the book not only emphasizes what has made reasons central across philosophy but it also explores why philosophers have such incompatible pictures about what reasons are and how they work Working from the inside out Howard and Schroeder identify contentious assumptions about not only the internal structure of reasons but also their relationship to other important concepts and then show how these contentious assumptions shape the many downstream applications of reasons in ethics epistemology political philosophy and beyond This mildly opinionated exploration of key questions about the significance and nature of reasons helps the reader to navigate this important part of the philosophical landscape and to get clearer about why reasons seem important and what their import ultimately is *The Fundamentals of Ethics* Russ Shafer-Landau, 2020 An exceptionally clear compact and affordable introduction to a broad range of ethical theories Ethics for Engineers Seppo J. Ovaska, Andrew T. Brei, 2025-08-21 Ethics for Engineers Toward Ethical Behavior within Engineering Organizations offers a multilevel perspective on engineering ethics with considerable breadth and depth making it a valuable resource for students educators and professionals alike This pragmatic book contains case studies of micro level ethical violations evaluating their moral implications and discussing moral self licensing behind making unethical decisions It also explores macro level cases that have caused significant reputational and financial damage to major companies In addition the authors touch on topics whose overall impact is not yet fully understood such as environmental ethics issues related to wind turbine blades and space debris management By presenting examples from different levels and offering reflections from various perspectives this text prompts readers to critically evaluate the ethical implications of their actions and understand what may drive a work community to behave unethically Key features Covers both moral theoretical and behavioral ethics perspectives Contains day to day micro level cases from the lives of practicing engineers supplemented with macro level cases Provides pragmatic guidance for individual engineers and their organizations to move toward value based ethics Features colloquial language to make the book an enjoyable and accessible read Includes 29 demonstrative vignettes 87 class exercises and an insightful interview with an ethics ambassador This unique text serves as a pedagogically sound learning companion for courses in engineering ethics and related topics striking a balance between research based findings with over 40 scholarly references and real world experiences featuring an Appendix by an industry

executive The Normative and the Evaluative Rach Cosker-Rowland,2019-01-31 Many have been attracted to the idea that for something to be good there just have to be reasons to favour it This view has come to be known as the buck passing account of value According to this account for pleasure to be good there need to be reasons for us to desire and pursue it Likewise for liberty and equality to be values there have to be reasons for us to promote and preserve them Extensive discussion has focussed on some of the problems that the buck passing account faces such as the wrong kind of reason problem Less attention however has been paid as to why we should accept the buck passing account or what the theoretical pay offs and other implications of accepting it are The Normative and the Evaluative provides the first comprehensive motivation and defence of the buck passing account of value Rach Cosker Rowland argues that the buck passing account explains several important features of the relationship between reasons and value as well as the relationship between the different varieties of value in a way that its competitors do not She shows that alternatives to the buck passing account are inconsistent with important views in normative ethics uninformative and at odds with the way in which we should see practical and epistemic normativity as related In addition she extends the buck passing account to provide an account of moral properties as well as all other normative and deontic properties and concepts such as fittingness and ought in terms of reasons

Ethics in Management Jacqueline Boaks,2025-04-07 Management and leadership roles in business and professions entail a wide range of ethical issues and challenges The authors of the papers in this volume consider angles such as the nature of licence to operate whether management attracts any kind of moral exceptionalism and the ethics of passion at work

Oxford Studies in Normative Ethics Volume 14 Mark Timmons,2024-09-19 Oxford Studies in Normative Ethics is an annual forum for new work in normative ethical theory Leading philosophers present original contributions to our understanding of a wide range of moral issues and positions from analysis of competing approaches to normative ethics including moral realism constructivism and expressivism to questions of how we should act and live well OSNE is an essential resource for scholars and students working in moral philosophy

The Broadview Introduction to Philosophy Volume II: Values and Society Andrew Bailey,2019-06-18 This volume of The Broadview Introduction to Philosophy offers an intriguing selection of readings on ethics social political philosophy and issues of life death and happiness Canonical texts from historical figures such as Plato Hobbes and Wollstonecraft are included alongside contemporary selections from such thinkers as Claudia Card Judith Jarvis Thomson and Ta Nehisi Coates Unlike other introductory anthologies the Broadview offers considerable apparatus to assist the student reader in understanding the texts without simply summarizing them Each selection includes an introduction discussing the context and structure of the primary reading as well as thorough annotations designed to clarify unfamiliar terms references and argument forms

Emotions, Technology, and Digital Games, 2015-09-25 *Emotions Technology and Digital Games* explores the need for people to experience enjoyment excitement anxiety anger frustration and many other emotions The book provides essential information on why it is necessary to have a greater understanding of the power these emotions have on players and how they affect players during and after a game This book takes this understanding and shows how it can be used in practical ways including the design of video games for teaching and learning creating tools to measure social and emotional development of children determining how empathy related thought processes affect ethical decision making and examining how the fictional world of game play can influence and shape real life experiences Details how games affect emotions both during and after play Describes how we can manage a player's affective reactions Applies the emotional affect to making games more immersive Examines game based learning and education Identifies which components of online games support socio emotional development Discusses the impact of game based emotions beyond the context of games

Death, Dying, and Mysticism T. Cattoi, C. Moreman, G. C. Harcourt, 2015-04-01 This volume offers a sample of reflections from scholars and practitioners on the theme of death and dying from scholars and practitioners ranging from the Christian tradition to Hinduism Lacanian psychoanalysis while also

touching on the themes of the afterlife and near death experiences *Debating Health Care Ethics, Third Edition* Doran Smolkin, Patrick Findler, Warren Bourgeois, 2025-04-28 *Debating Health Care Ethics Third Edition* explores contemporary moral challenges in health care through a unique debate format providing students with the essential tools to understand and critically evaluate the leading arguments in the field and to develop their own arguments on important moral problems in health care The first three chapters explore the nature of arguments philosophical methodology and a range of leading normative ethical theories The remaining chapters introduce students to moral problems in health care through dramas that feature complex scenarios involving patients family members and health care providers Each drama is followed by a lively debate where the authors consider and evaluate rival arguments concerning the moral issues raised by the drama The dramas encourage students to start thinking about ethical issues in health care The debates then demonstrate how arguments are developed and criticized These debates also encourage students to develop and defend their own arguments on these topics This technique is more interactive and approachable than standard philosophical texts This third edition contains updated chapters and dramas that reflect recent changes in health care in Canada One such change is to the chapter on euthanasia which now includes a drama and a debate centred on the morality of legalizing Medical Assistance in Dying MAiD Other changes to the text are in response to the Covid 19 pandemic These include updated chapters on the proper rules for prioritizing care in emergency situations triage and the moral limits of medical doctors administering unproven alternative medications to patients who request them The third edition also contains a drama and debate on autonomy and valid consent and a drama and updated debate on the justice of a two tier health care system where one level of health care is available to all regardless of means and another level of faster health care is available only to those with means **Paul Tillich and Religious Socialism** Kirk R. MacGregor, 2021-03-19 Paul Tillich and Religious Socialism

Towards a Kingdom of Peace and Justice argues that the Kingdom of God the reign of God over all human affairs via God's manifestations in love power and justice can be fragmentarily achieved through a religious socialism that creatively integrates the early Tillich's socialist thinking with later insights throughout Tillich's theological career and with contemporary developments in just peacemaking The resulting religious socialism is defined by economic justice and a recognition of the sacred reality in all human endeavors It employs Christianity to furnish the necessary depth for warding off materialism and affirming the spiritual dimension of both labor and acquiring material goods The unbridgeable Marxist chasm between expectation and reality is bridged through new being already historically inaugurated in the Christhood of Jesus New being is fundamentally oriented toward bringing justice to the poor the disenfranchised and the marginalized It affirms the individual and equal value of all persons and thus in Kantian terms promotes a kingdom of intrinsically worthwhile ends rather than a kingdom of instrumentally worthwhile means of things **Why Be Moral?** Beatrix Himmelmann, Robert Loudon, 2015-09-25 What reasons do we have to be moral and are these reasons more compelling than

the reasons we have to pursue non moral projects Ever since the Sophists first raised this question it has been a focal point of debate Why be Moral is a collection of new essays on this fundamental philosophical problem written by an international team of leading scholars in the field **Off the Rails** Barry H. Baker,2022-05-19 The train is off the rails What is wrong with the train cars What are the train cars And how do we get them back on track Each train car represents a different topic We examine each train car to understand the topic and then figure out whether to abandon the train car or see if it can be useful again In part 1 some of the topics we examine include What is logic Is there objective truth What about objective moral values Can we know the world around us Are we good people Do we have free will Are any of the four major ethical codes adequate In part 2 we examine the following questions Does God exist Is there any evidence for his existence What are the implications of the evidence Is Jesus a myth Can we trust the biographies of him in the New Testament How does Jesus solve the sin issue What is wrong with certain aspects of the current church There are many challenging concepts that are examined in this book It is not for the fainthearted there are many claims in this book that challenge the current status quo

Ethics Through History Terence Irwin,2020-03-26 What is the human good What are the primary virtues that make a good person What makes an action right Must we try to maximize good consequences How can we know what is right and good Can morality be rationally justified In Ethics Through History Terence Irwin addresses such fundamental questions making these central debates intelligible to readers without an extensive background in philosophy He provides a historical and philosophical discussion of major questions and key philosophers in the history of ethics in the tradition that begins with Socrates onwards Irwin covers ancient medieval and modern moral philosophers whose views have helped to form the agenda for contemporary ethical theory paying attention to the strengths and weaknesses of their respective positions

Explorations in Ethics David Kaspar,2020-09-01 Explorations in Ethics is a collection of essays with a speculative bent Its twelve contributors attempt to take ethics thinking in new directions Ethics is fundamentally a speculative discipline We sometimes lose sight of that because of our current scholarly practices which include reliance on a set of traditional works in ethics deferring to the scholarly literature drawing from the evidential sources afforded us This volume breaks the mold It is committed first and foremost to exploring new ground in a methodologically sound way whilst respecting and building on the literature where needed The contributors range from world renowned ethicists to early career scholars The ethical standpoints represented are various and the overall aim of this collection is to stimulate fresh thinking **Beyond**

Exchange Olga Epitropaki,Robin Martin,2024-10-01 Beyond Exchange Revisiting Leadership as a Relationship emerged in response to scholarly calls to steer away from the exchange rhetoric and give and take conceptualizations in the study of leader follower interactions and instead shift the focus to the fundamental element of relationship The book delves into the very essence of leader follower relationship dynamics revisits fundamental assumptions of popular relationship based leadership theories such as Leader Member Exchange takes stock of progress made in this research strand and proposes

exciting avenues for future research This book frames leader follower interactions as a complex and dynamic relational phenomenon that evolves over time and encompasses a multiplicity of relationship types Relationships are not static and one size does not fit all The book cross pollinates ideas from other research domains such as relationship science and highlights the role of the follower and the importance of affective processes ethics and fairness on different levels of analysis It further extends the notion of leader follower relationship beyond the dyad to more complex network interactions We hope readers will find ideas that resonate and the book helps rekindle scholarly passion for relational phenomena in organizational settings

Psychopathy Unmasked Rasmus Rosenberg Larsen, 2025-06-17 Why our fascination with psychopaths is scientifically wrongheaded and how the criminal justice system has misused the controversial science of psychopathy Psychopathy is a widely acknowledged personality disorder associated with callous unemotional traits and antisocial behaviors Psychopathic persons are described as dangerous predators incapable of empathy and moral intuition and while they are believed to make up only around 1 percent of the general population forensic experts claim they are disproportionately responsible for the majority of violent crimes Today psychopathy assessments are being widely used in the legal system to inform a variety of judicial decisions In *Psychopathy Unmasked* Rasmus Rosenberg Larsen provides a critical rebuttal of psychopathy and its legal use scrutinizing central claims about the diagnosis that have traditionally served to justify its role in the criminal justice system It is estimated that hundreds of thousands of offenders undergo a psychopathy assessment each year in North America This book surveys and discusses contemporary developments in psychopathy research where studies have consistently shown that psychopathic persons contrary to mainstream beliefs are not meaningfully more dangerous than or psychologically different from ordinary non psychopathic criminals Based on these disqualifying findings Larsen argues that we should end the use of psychopathy assessments in the legal system
