Prairie Tale Melissa Gilbert,2009-06-09 A fascinating heartbreaking and ultimately uplifting tale of self discovery from the beloved actress who earned a permanent place in the hearts of millions for her role in Little House on the Prairie when she was just a child To fans of the hugely successful television series Little House on the Prairie Melissa Gilbert grew up in a fantasy world with a larger than life father friends and family she could count on and plenty of animals to play with Children

across the country dreamed of the Ingalls idyllic life and so did Melissa. With candor and humor the cherished actress traces her complicated journey from buck toothed Laura Halfpint Ingalls to Hollywood starlet wife and mother. She partied with the Brat Pack, dated heartthrobs like Rob Lowe and bad boys like Billy Idol, and began a self-destructive pattern of addiction and codependence. She eventually realized that her career on television had earned her popularity, admiration, and love from everyone but herself. Through hard work, tenacity, sobriety, and the blessings of a solid marriage, Melissa has accepted her many different identities and learned to laugh, cry, and forgive in new ways. Women everywhere may have idolized her charming life on *Little House on the Prairie*, but Melissa's own unexpectedly honest, imperfect, and down-to-earth story is an inspiration.

*Nature's Bible* Kent Gramm, 2023-08-22 Striking photographic images paired with stories and statements by birds, mammals, and reptiles cast light on some of humanity's most sacred writings. Speaking rhinos and puffins are no more unlikely than talking humans, and considering where all of our talk has gotten us, the brink of extinction, it is time we listened to our fellow creatures. They are funny, thoughtful, observant, and like the Hebrew prophets, they point out the worst in us and elicit the best, giving straight talk of warning and of hope. In these pages, a pigeon with travel anxiety, Geraldine the matter-of-fact Florida Cooter, Schmidt the twigfitter songbird, Mephistophelean alligators, vanishing bison of the prairies, and lions of Africa and Asia hold the mirror up to nature and show us our unlikely and imperfect human face.
